The greatest economy of Ford cars is not in the low price but in the low after-cost of operation—less than two cents a mile—in city and country. They are designed and built to serve and save; to bring the luxury of pleasure and the sturdiness in business work—this is why there are more than 700,000 now in use—this is what has made the Ford the universal car—these are the merits we present why you should buy a Ford.

Buyers will share in profits if we sell at retail 300,000 new Ford cars between August, 1914, and August, 1915.

Runabouts, \$440; Touring Car, \$490; Town Car, \$690; Coupelet, \$750; Sedan, \$975, f. o. b. Detroit, fully equipped.

On display and sale at **Oakland Garage**, 128 Woodward Avenue.
