INSTALL PASTOR

Rev. William G. McKnight, of Detroit, to be Installed as Pastor of the Presbyterian Church Sunday

Rev. William G. McKnight, of Detroit, will be installed as minister of the First Presbyterian church, of Birmingham, Sunday afternoon, June 13, at 3:30 o'clock.

The services will be in charge of Rev. James T. Black, Moderator of the Presbytery, or in his absence, Rev. J. R. J. Milligan.

The sermon will be preached by Rev. Joseph A. Vance, D. D.; alternate, Rev. A. M. Cameron.

The charge to the pastor will be given by Rev. James M. Barkley, D. D.; alternate, Hugh Black.

The charge to the people will be given by Rev. W. H. W. Hoyle, D. D.; alternate, Rev. William T. Jaquess, D. D.

The installation prayer will be made by Rev. J. R. J. Milligan; alternate, Rev. A. G. Work.

COMMENCEMENT

Exercises of the Birmingham High School Will Be Held Week of June 13.

The annual commencement exercises of Birmingham High School will take place the week of June 13. The largest class in the history of the school will be graduated this year.

On Sunday evening the baccalaureate address will be given by Rev. C. E. Wakefield in St. James' Episcopal church. The graduating class will attend the services and special music has been prepared by the choir of St. James'.

On Thursday evening the Class Night exercises will be held in the auditorium of the Methodist church. The program is given entirely by the class and is of unusual interest to the friends of the graduates. The highest class honor, the valedictory, will be given by Hope Ferguson, and Virginia Hartwell will deliver the salutatory. George Johnson will prophesy the futures of the different members. Evelyn Stock will act as giftorian and Mark Hanna will read the class will. Marguerite Haskins will review the history of the class and James Montgomery explains the significance of the well chosen class motto, "Semper Paratus." Alvin Beardslee has been chosen by the class to deliver the class oration and the president, Fred Reed, will give the president's address. Other members of the class will also contribute to the program. The High School Glee Club and the Male Quartette will give musical selections. Esther Wakefield, the class musician, will give a selection on the new pipe organ.

On Friday, June 18, the commencement address will be delivered in the auditorium of the Methodist church. Miss Elizabeth Trible, soprano soloist of the Detroit Institute of Musical Art, will give two solos. Miss Trible was heard in Birmingham recently in the last concert of the Choral Society, "The Chimes of Normandy." Mr. Louis Motto, the cellist, will give two numbers also.

Everyone interested in the work of the school and in the graduating class of 1916 are cordially invited to be present at all of these closing exercises. All will begin at 8 o'clock and the commencement exercises will be held in the Methodist Episcopal church.

Neuralgia Pains Stopped.

You don't need to suffer those agonizing nerve pains in the face, head, arm, shoulders, chest and back. Just apply a few drops of soothing Sloan's Liniment; lie quietly a few minutes. You will get such relief and comfort! Life and the world will look brighter. Get a bottle today. Three ounces for 25c, at all druggists. Penetrates without rubbing.—Adv.

ST. JAMES' CHURCH NOTES

The services for the second Sunday after Trinity will be as follows: 6:30 a. m., Holy Communion; Bible School at 9:45; and morning services at 10:45.

The baccalaureate service for the high school graduates at 8 o'clock. Rev. C. E. Wakefield will be the preacher.

Rev. Dr. John McCarroll, Canon of the Cathedral, will be the preacher at the morning service.

These services are held according to eastern time.

ORDINANCE NO. 68.

AN ORDINANCE to Regulate and Provide for Sanitary connections with and construction of Water Mains, Gas Mains, Public Sewers, Lateral Sewers, Private Drains and Other Service Pipes that are or may be laid in any of the Streets or Alleys or other public places and providing for the issuing of permits and the licensing of Plumbers, within the Village of Birmingham, Mich.

The Village of Birmingham Ordains:

Section 1. No person or corporation shall be permitted to dig any excavating, tap or make connection with any water mains, or other service pipes, or to open any drain or sewer for his, her, or their premises with any public or lateral sewer or drain, now made or constructed or hereafter to be made and constructed, whereby his, her, or their premises will be drained into any public or lateral sewer or drain except on previous written application to and permission granted therefor by the Council or Village Clerk. Persons not embraced in the assessment roll shall be required to pay on application for permission to connect premises outside the assessment district, to the Village Clerk, a taxable proportion of the cost of said sewer to be ascertained by the Council through the Village Engineer who shall make an estimate on the premises drained, therefore, and a reasonable sum apportioned for the amount which each proprietor is entitled to, to be paid from such money so deposited with the Council.

Sec. 2. All connections with any water main shall be made at least five feet below the established grade of the street, on all paved streets and streets to be paved, such connections shall be made with extra heavy lead pipe extending from the main to the stop box and on dirt streets, such connections shall be made with lead pipe extended two feet from the main and the remaining part galvanized or lead pipe to the stop box.

Sec. 3. Whenever the Council shall determine to pave any street or alley, it shall be the duty of the Council to serve or cause to be served a written or printed or partly written and partly printed notice upon the owner or agent of any lot or parcel of land abutting said street, if found within the village, requiring him, her or them to make connections with all water mains, pipes, sewers or other service pipes within ten days from the date of service of such notice. In case the officers shall be unable to find within the village the owner or agent of any lot or parcel of land abutting said street or alley, then such notice may be served by posting the same in some conspicuous place upon said lot or premises. If the person or persons so notified shall neglect or refuse to comply with the requirements of the foregoing within ten days after notice served, it shall be the duty of the Council to at once cause the required connections to be made. The Council shall, after completion of the work, mail to the owner of such properties a bill covering the entire cost thereof, in default of payment, the Council shall cause to be made a statement upon the assessment roll, which shall be made and be a lien upon lot or lots, or premises and the same proceedings shall be had in respect to the enforcement and collection thereof as are provided for the collection of other special assessments. No street or alley shall be paved until the Village Engineer has filed a written report to the Council to the effect that all such connections have been made in such street or alley, proposed to be paved.

Sec. 4. Whenever connections are to be made with any sewer, drain water or gas mains, in any public street or alley is paved or gravelled, the pavement or gravel in such streets shall be taken up for a length of at least one foot in width on each side of the trench, the paving material or gravel to be deposited on one side of said trench and the subsoil on the opposite side and when the trench is refilled, the pavement or gravel shall be replaced in the same condition as it was before the commencement of the said work. For sewers, as little as possible of the trench must be dug until the "Y" branch in the sewer is found. Whenever the side of the trench will not stand, perpendicular sheeting and braces must be used to prevent caving in of the banks, in no cases will tunneling be permitted. All openings and obstructions in any street or alley must be guarded at all times with sufficient barriers and during the night shall be indicated by red lights, and such other precautions as shall be necessary to guard the public against accidents, and at all times the work shall be so done as to cause the least inconvenience to property owners and the general public.

Sec. 5. Any person or corporation desiring to do business as a plumber, sewer builder in connection with the water main, sanitary sewer or drain system, shall file in the office of the Village Clerk a petition giving names of the person or corporation and the place of business, and asking to be licensed as a plumber or sewer builder. Said petition must be signed by responsible citizens of the Village of Birmingham, vouching for the business capacity and reputation of the applicant, that he is a resident of Birmingham, a master of his trade and willing to be governed in all respects by the rules and regulations which are or may be adopted by the Council of said Village. Each applicant for a license shall execute and deposit in the office of the Village Clerk with his application a bond with two or more resident sureties, to be approved by said Council in the sum of Five Hundred Dollars ($500.00) or of such amount as the Council may from time to time designate conditioned that he will indemnify and save harmless the Village of Birmingham from all accidents and also damages caused by any negligence in protecting his work, or by any unfaithful, imperfect, inadequate, careless or unskilful work done by him, and that he will also promptly and at the proper time replace and restore sidewalk pavement, street or alley surface over any opening he may have made to as good a state and condition as he found it, previous to opening the same, and to keep and maintain the same, in good order to the satisfaction of the Council for the period of 6 months next thereafter, and that he will pay all fines imposed upon him for a violation of any of the rules or regulations prescribed by this ordinance. On receiving his license he shall pay an annual fee of $5.00 and shall have recorded in the office of the Village Clerk, his actual place of business, the name under which the business is transacted and shall immediately notify the Village Clerk of any change in either thereafter. No license shall be granted for more than one year and all licenses will be granted to expire on the first Monday in June, removal of residence from the Village shall act as forfeiture of license. Renewal of license shall be made the same as hereinbefore described as for original application.

Sec. 6. Application for permit for water, or to connect with sewer or drain system must be made in writing by the owner of the property to be drained or his or her authorized agent, such application shall state the exact location of the property, the number of lot, number of feet front, number of buildings to be connected and number of sinks, water closets and other fixtures to be connected, the name of the owner and the name of the licensed plumber or sewer builder employed to do the work and shall be made on blanks furnished for the purpose. Provided, however, that the permit shall be granted on the express condition that the owner for whose benefit the connection is made shall in behalf of him or herself, his or her heirs or assigns, hold the Village of Birmingham harmless for any loss or damage that may, in any way, result, or be occasioned by the making of any such connection. Provided further that such permit shall not be granted until the applicant shall have paid the fee of $0.60. Such permit shall be filed in the office of the Village Clerk within five days after the completion of the work and shall be accompanied by a correct return, signed by the licensed plumber or sewer builder, showing the number of the feet of pipe laid and fixtures drained, together with such other information as may be required to make a complete record of the work.

Sec. 7. No person or corporation shall injure, break or remove any portion, of any manhole, lamphole, flush tank, or any part of the sewer system, or throw or deposit or cause to be thrown or deposited in any sewer opening or receptacle connected therewith in the sewer system any garbage, offal, dead animals, vegetable parings, ashes, cinders, rags or any other matter or thing whatsoever.

Sec. 8. Cellars may be connected with the sewers or house drains only when the drain from the cellar can be trapped in such a manner that the water seal cannot be destroyed.

Sec. 9. Cistern overflows shall not be connected with any sewer or drain without the special permission of the Council, and then only when they can be tapped in such a manner that the water seal cannot be broken.

Sec. 10. No person shall be permitted to connect any drain from his, her or their premises with any main sewer, lateral sewer or drain unless upon payment to the Village of a rateable proportion of the expense of construction, as if the same were a lateral sewer, the amount to be determined by the council, or with any drain or sewer made by one or more individuals in any street or alley unless by permission of Council and payment to the proprietors of such drain or sewer of a rateable proportion of the expense of construction of same, the amount to be ascertained and determined by the Council.

Sec. 11. Every person having any drain from his, her or their premises that shall be connected with any drain or sewer now made or that hereafter may be made shall pay a rateable proportion of all expenses necessary for maintaining and keeping such drains or sewers in repair.

Sec. 12. No person shall make or construct any drain or sewer in any street or public place within four feet of the curbstone of the sidewalk, unless it be so done, shall be determined by the Council. The replacing of any gravel, or paving shall be done within 48 hours after the laying of the water, gas pipe, house drain or sewer and must be done so as to make the surface at least as good as it was before being disturbed, and to the full satisfaction of the Council, and the license plumber or sewer builder will be held responsible for any subsequent settlement in the ground or pavement. All water pipes must be protected to the satisfaction of the Village Engineer, and all gas pipes must be protected to the satisfaction of the company owning the same, and any subsequent damage to either sewer, drain, water or gas pipes by reason of subsequent settling of the earth in the trench shall be made good by the licensed plumber or sewer builder.

Sec. 13. The cover of the "Y" branch on the sewer shall be carefully removed so as not to injure the socket. The first length of pipe attached to the "Y" branch shall be curved and set to give a fall into the sewer. The entire line of pipe in any house branch shall be laid on a uniform grade from a point three feet outside the wall of the house to the "Y" branch; such grade shall have a fall of not less than one foot in thirty-five. The house to the sewer unless by special permission of the Council, in which case provision must be made for regular and efficient flushing. Curved pipe shall be used for every deflection from a straight line of more than 2 inch in two feet, and shall be of salt glazed vitrified, earthenware pipe unless laid less than 3 feet in depth, when it shall be of cast iron. Its interior diameter shall not be less than 4 inches. Outside the curb line the interior diameter shall be four inches. The connection between four and six inch pipe shall be made with a increaser. All earthenware pipe shall be of the best quality or hard burned vitrified shale pipe with sockets and of a make and quality to be approved by the Council. The joints of the earthenware pipe shall be made with caulker of oakum, or jute around the entire circumference of the pipe, pressed to the back of the annular space between the pipes, outside the oakum shall be entirely filled with cement mortar, made from cement of first-class quality to be approved by the Council and clean sharp sand in the proportion of one part sand and one part cement actual measurement to be made in a vessel provided for the purpose. Each joint shall be thoroughly wiped after being made to remove all cement from the inside of the pipe. When cast iron is used, all joints shall be of oakum and lead caulked thoroughly. The ends of all private sewer, of all earthen pipe, not immediately used, shall be closed watertight by a stopper of vitrified salt glazed earthenware cemented with cement mortar. The end of cast iron pipe must have an iron or earthen cover cemented in.

Sec. 15. In all cases where drains or sewers shall be obstructed so as to become in the opinion of the Board of Health or Council a nuisance, it shall be the duty of the last named to give notice to the persons using the same to put the drains or sewers, and if the same shall be not forthwith repaired, it shall be the duty to cause the necessary work to be made, and to charge the people with a rateable proportion of the expense of the same, which shall be assessed against the premises connected with such drain or sewer as a tax, and collected in the same manner as special assessments.

Sec. 16. Any person or persons owning a lot or lots, in the vicinity of a public sewer, will be required to connect his, her or their lot or lots into a lateral or other sewer if existing adjacent thereto, which may be made to divide upon the line of, or fronting on, and the drain from lot or lots shall be laid, and connected in accordance with the regulations and supervision of the Council and connected where the said Council or Village Engineer shall direct.

Sec. 17. Whenever in the opinion of the Council the health of the People of Village or lots or premises whether occupied or unoccupied, shall for want of sufficient drainage become dangerous to the public health or a nuisance, they shall cause a notice written or printed, or partly written and partly printed to be served by the Village Clerk or officer upon the owner, agent or occupant of such lot or premises to construct a drain or sewer to be designated by the Council, such notice shall be served personally upon the parties to be notified if found, and if not found by posting the same in some conspicuous place on the premises.

Sec. 18. If the person or persons so notified shall neglect or refuse to comply with the requirements of the foregoing section within ten days after notice is served, it shall be the duty of the Council to at once cause the required drain or drains, sewer or sewers, to be constructed, so as to well and sufficiently drain such premises. The Council shall keep an accurate account of the work, cause to be made a statement of assessment roll showing the entire cost thereof and the proportion of cost in just proportions upon the lots or premises charged and upon the confirmation of said assessment by the Council such apportionment shall be final, and be a lien upon lot or lots or premises to the extent and as apportioned, and the same proceedings shall be had in every respect for the enforcement and collection thereof as are provided for the enforcement and collection of other special assessments.

Sec. 19. Every owner, lessee or occupant of a lot or subdivision thereof, on which buildings are erected or improvements made or if vacant, lessee or occupant of unimproved lots or subdivisions thereof, when so ordered by the Council shall cause a connection to be made between the said premises owned, leased or occupied by them, and the lateral sewer, or if which may hereafter be built adjacent to said premises, said connection to be made of such material and size, and in such a manner as the Council shall designate.

Sec. 20. The Council may by resolution, direct the construction, cleansing or repairing of lateral sewers or drains through or in any streets or alleys, or the construction, cleansing or repairing of drains from any house, yard or lot. When in their opinion the same shall be necessary. Such drains or sewers to be of such materials and be laid or constructed in such direction, of such dimensions and with such descent, and with such strainers or grates as the Council shall direct. And that no wooden box or drain shall be constructed or laid in any public street or alley, but that all sewers or drains constructed in and in said streets or alleys, shall be of brick or crock or such other material as the Council may approve.

Sec. 21. When a lateral sewer is petitioned for in any street or alley, said petition shall provide that sewers shall be constructed in all the alleys contiguous and connecting to same as the council may direct, in which no lateral sewer is already constructed and no petition for which may have been constructed. And in said block shall be considered a lateral sewer and ordered so and so far as the Council and all the property of such block shall be subject to assessment for the construction of the same in addition to the surface area drained, as hereinafter provided.

Sec. 22. A lateral sewer may be ordered constructed in any alley or street on the petition of the owners of the real property abutting upon or adjoining the alley or street in which said lateral sewer is proposed to be constructed. And if any of the lots included in any block in such petition which said lateral sewer may be ordered constructed do not abut upon the alley or street through which said sewer is proposed to be constructed, said lots or lot shall not be included in the assessment district, but upon requiring sewerage said lots shall be permitted to connect through the streets or alley with any contiguous public sewer or drain to be designated by the Council on payment into the public sewer fund of a sum equal to the amount assessed for similar area in said block for the construction of the lateral sewer in said block and the sum or sums to be paid as herein provided shall be fixed by the Council, and the said Council may, on the benefit of the Public Sewer Fund before permission is granted to connect with such public sewer or drain.

Sec. 23. No connection with the water mains or sewers shall be made by any of the Village of Birmingham shall be permitted property within the village limits, except on the recommendation of the Council adopted by three-fourths vote of all the Trustees elect and the payment into the public water fund, after report of the Village Engineer.

Sec. 24. Whenever the Council shall by resolution, declare it necessary and shall direct the construction of any lateral sewer in the Village of Birmingham and shall have described in said resolution the land or lots to be assessed therefor constituting a taxing district for the purpose of such assessment, which description shall be sufficient and each shall be described as the lots or parcels of land abutting upon or adjoining said improvements, it shall be the duty of the Council to advertise in the official newspaper of the village for two consecutive times for bids for said work, and the contract shall be awarded to the lowest responsible bidder. Before any work shall be commenced under such contract, the Village Engineer, shall make out an estimate of the proposed assessment for each separate assessment district, and shall apportion to each lot or parcel of land abutting upon or adjoining the line of said sewer, including an estimate for the cost of advertising in proportion to the benefits which, in his judgment, such lot or parcel of land will receive from the improvement or in proportion to the frontage upon said improvement.

Sec. 25. All drains, plumbing work or sewer constructed under the provision of this ordinance shall be performed under the supervision of the Council and shall not be covered up until after inspection.

Sec. 26. Any person holding a license as plumber or sewer builder who shall be guilty of any violation of any of the provisions of this ordinance shall be immediately deprived of his license and the Council may refuse to grant such person additional license to carry on work under the provisions of this ordinance for a violation or failure on the part of any person so licensed to comply with the provisions of this ordinance shall be punished by a fine of not less than $10.00 and not to exceed $100.00 and costs and in the imposition of any such fine and costs, the same to stand as a further sentence that in the default of payment thereof within time to be fixed in such sentence, the offender be committed to the County Jail for any period of time not exceeding ninety (90) days.

Sec. 27. No refunding roll shall be made for connecting with a lateral sewer unless the property connection abuts on the sewer and unless only a part of the entire piece as platted at the time of making the connection was assessed when the sewer was originally constructed, in no case where the new connection is virtually or practically as valuable as the sewer already built shall a refunding roll be made; refunds shall be paid to the owners for the time said refunds are spread and made payable.

This ordinance shall take effect June 17th, 1915, and all other ordinances or parts thereof insofar as they shall conflict or are inconsistent with this ordinance are hereby repealed. Approved May 17, 1915.

Attest: E. A. MUDGE, Clerk.
PHILIP SCHLAACK, President.

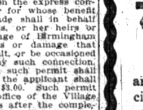
Free Domestic Science Lectures

In Johnston-Shaw Hall Birmingham

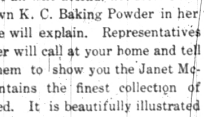
Beginning Tuesday, June 15

To the ladies of Birmingham and vicinity is extended a most cordial invitation to meet Miss Mary Harwood Weldon, of Chicago, and listen to her lectures on "Science and Domestic Economy" at Johnston-Shaw Hall, beginning Tuesday afternoon, June 15.



Miss Weldon illustrates her lectures with interesting baking tests, which are sure to instruct and please you. There will be no dread of baking-day after hearing the helpful suggestions. Miss Weldon is an exponent of the art of baking, taught by Mrs. Janet McKenzie Hill, of the Boston Cooking School, and has many new practical ideas that you are sure to find helpful. There is no charge whatever for this course. Tastiest of delicious baking will be served to all who attend, hot from the oven, while you wait.

She uses the well-known K. C. Baking Powder in her work. She thinks it superior to others for reasons that she will explain. Representatives of the K. C. Baking Powder will call at your home and tell you of its merits. Ask them to show you the Janet McKenzie Cook Book. It contains the finest collection of choice recipes ever compiled. It is beautifully illustrated and costs you nothing.



Frosting for Lady Baltimore Cake

PROGRAM

Tuesday—Lady Baltimore Cake, Beef Roll Nut Bread, with brown gravy, and Strawberry Short Cake.

Wednesday—Chocolate Cake, Snow Balls, and Steak Pie with potato crust.

Thursday—Ribbon Cake, Tuna Fish Salad, Cheese Straws, and Muffins.

Friday—Pineapple Cake, Salmon Loaf with tomato sauce, and Biscuits.

Saturday—Cream Cake, Doughnuts, and Prune Ruchen.

The Cook's Book Used by Miss Weldon Is Free

Ask the representative of the Lecturer that calls on you how to secure this valuable book free of charge.
