Good for Young Girls

The health of every young girl just budding into womanhood necessitates careful consideration. Almost invariably she will require special attention—she becomes anemic, restless, and does not seem to be herself—the body functions peculiar to her sex are about to assert themselves.

This is the critical period of a girl's life—should she be neglected—not assisted in every way and the delicate organisms prompted to regularity, the chances are it will destroy her future comfort and happiness.

Do not experiment—prepare her ahead of time—fortify her system to withstand the coming trials—have her go through life with her good health unimpaired.

Nyal's Vegetable Prescription

will invigorate and tone up the entire system—supply nourishment to broken-down tissues and insure regularity of organic functions. This preparation is peculiarly adapted to any functional disorder and is prompt and effective in its action.

You need have no hesitation—use Nyal's Vegetable Prescription—we know it or we would not recommend it. A large bottle for \$1.00.
