THIRTY-EIGHTH YEAR. NO. 51

BIRMINGHAM, OAKLAND COUNTY, MICHIGAN, FRIDAY, APRIL 21, 1916.

WHOLE NUMBER, 1973

Several Reasons Why Birmingham

how many supernatendents in the state of Mishigap have their office invaded twice every ferty-five minutes by lines of History stadents, marching back and forth. The loosened timbers afford a loursious home for mice, who in the quiet hours of the day, feast upon the remnants of lunches, left by those who lunch in class rooms, as there is no other place provided for them.

Aside from the fact that the present building has many objectionable features, of which the above is a very small portion, it falls to offer many of the opportunities which neighboring up without knowing how to cook or sew, the boys without learning, how to become experts with teols, and both boys and girls losing the advantages of a gymnalium.

and girls losing the advantages of a gymnasium. It is true that Birmingham sooner or later will have a new High School. Just how soon that time arrives depends not entirely upon the school and super-intendent, but upon the activity of the students. It is true, that many of the present students cannot hopode-enjoy a new building while there are attending the Birmingham High School, but the majority dan entertain such a hope. In any case, a spirit of enthusiasm should be manifiest, a willingness to work for a thing that is desirable and necessary, whether or not there is any personal her or not there is any personal to be derived. Let every student, force, use his or her influence to-the speedy accomplishment of the as they have been set forth.

Several Reasons Why Birmingham

Needs New High School, Students

Urged to Exert Influence.

After reading the concise little book compiled by Mr. Vilet, any far-minded person can see many reasons why we need a new High School. This book, entitled "The Proposed New High School and Auditorium," centains much Information and comparisons as would with the usual mattiness on Workership School and Auditorium, "centains much Information and comparisons as would with the vestion to the project.

Among those engaged in the campaign which has new been degun, none mere discretively affected by the present conditions than they. That this building has seen its best days and has served its purpose, we all agree.

An imagedion of word, brick, and mortar.

An imagedion of the interior of the building far seen in the tast system of the third of the first time with the secondary project. A visitor, when entering the building has seen the best days and has served its purpose, we all agree.

An imagedion of wood, brick, and mortar.

An imagedion of the interior of the building has seen the best days and has served its purpose, we all agree.

An imagedion of the interior of the building has been the best days and has served its purpose, we all agree.

An imagedion of the interior of the building has been the building in seven more disheartesing. A visitor, when entering the building has been the building for the first time, is impressed by the dark, narrow, imany hall, with walls become the first time that the present conditions that the theory is a sent the building for the first time that the present of the building for the first time that the present of the building for the first time that the present of the building that the present of the building for the first time that the present of the building for the first time that the present of the present of the building for the first time that the present of the present of the present of the building for the first time that the present of the present of the building for the first ti In a play that has made the sensa-mal hit of the present season in New

& HEACOCK

Good for Young Girls

The health of every young girl just budding into womanhood necessitates careful consideration.

Almost invariably she will require special attention—she
becomes anemic, restless, and does not seem to be
herself—the body functions peculiar to her sex are
about to assert themselves.

This is the critical period of a girl's life—should she be
neglected—not assisted in every way and the delicate
organisms prompted to regularity, the chances are it
will destroy her future comfort and happinges.

Do not experiment—prepare her ahead of time—fortify
her system to withstand the coming trials—have her
go through life with her good health unimpaired.

Nyal's Vegetablo Prescription

will invigorate and tone up the entire system -supply nourishment to broken-down tissues and insure regularity of organic functions. This preparation is peculiarly adapted to any functional disorder and is prompt and effective in its action.

You need have no hesitation—use Nyal's Vegetable Prescription—we know it or we would not recommend it. A large bottle for \$1.00.

A very fine line of Rubber Goods, such as Hot-Water Bottles Fountain Syringes, etc., now in stock.

JAMES COBB

FOR SAI

One acre with good 7-room House in village limits. Will cut into 8 good city lots, 165x165, facing on 2 streets Also 5 acres just outside city limits
