The International Paper company which makes one-fourth of all the white paper used by newspapers in the United States has notified publishers that the price will be $62 at the mills, purchasers to pay freight, cartage, insurance and storage charges. Other paper makers will, of course, follow the International. The advance is 55 per cent over the old price of $40 a ton, and will hamper every newspaper in the United States. It will be especially hard on weekly papers in small towns, which cannot increase their incomes, nor reduce the size of their papers to meet the added outgo. A. G. McIntyre, paper expert of the American Newspaper Publishers' association, says 2,000 papers, not all small ones either will be forced out of business by the advance.—Oswego Argus-Press.

Booth, of the Hillis and Booth Evangelistic party, has arrived in Birmingham and is completing arrangements for the coming of Evangelist Hillis. Rev. Hillis comes recommended by all who have heard his services and will conduct a revival in the best interest of the community. The churches have united in inviting Rev. Hillis and will vouch for his enthusiastic welcome.
