Let Your Next Car Be a Chalmers

The Six-30 is the latest, triumph of Chalmers engineering. Flexibility of performance and economy of operation are made possible by the compact, high-speed motor. Proper balance has overcome side-sway and tendency to skid. Genuine comfort is assured by the deep unboistery and long, gentle spring action. The most rigid inspection of materials and operations prevails in the Chalmers factory. And back of this car stands the Chalmers organization with its eight-years record of Quality Cars.
