The Standard of Value and Quality

Sumptuous Motoring

It is instinctive in us Americans to travel, not only comfortably, but luxuriously. We demand everything that means greater safety, greater convenience, greater ease, and elegance of traveling. It is the national habit.

To meet that national standard of luxurious motoring the New Series Fairfield "Six-46" has been designed. And the proof that it has already met that demand is attested by the astounding reception it has received in the short time since we announced it and have had it on exhibition.

We claimed that the New Series Fairfield "Six-46" is "the most completely equipped car that can be purchased on the American market—absolutely irrespective of price." The instantaneous popularity and appreciation of this car have already verified the truth of that claim.

If you have not already seen this car, ridden in it and driven it, we urge you to do so. We urge you to compare it with any other car in the world and see for yourself whether any other car—regardless of price—can offer you so much efficiency, comfort, luxury and intrinsic value as this New Series Fairfield offers you and the price is \$1375.

Make Flour From Bananas.
Experiments in Jamaica have converted the banana into flour, the wholesale price of which is said to yield a profit so fair that the making of the flour may soon be a regular enterprise. The late Sir Isaac Holden, who lived to be a centenarian, always used banana flour.—London Chronicle.
