

PAIGE

The Standard of Value and Quality

Introducing the New Series Paige Fairfield "Six-46"

In the New Series Paige Fairfield "Six-46," we introduce the most completely equipped motor car that can be purchased on the American market—**absolutely irrespective of price.**

This is a broad claim—a sweeping claim. But like every other statement made in the announcements of this company, it is the actual, literal truth. Any comparative investigation will establish this fact convincingly.

And, when we speak of "complete equipment," please understand that we refer to every luxury and convenience that can contribute to the comfort of motoring.

The New Series Fairfield is a complete car—a finished car. From every standpoint it represents the last word in elegance and luxury.

Right now we might attempt to describe for you the many features that have been added to this greatest of all Sixes. Even a partial list of accessories would startle the man who believes that extreme motoring comfort is necessarily a matter of prohibitive cost.

But we do not purpose to confine ourselves to descriptions, for this is one instance where mere words fail completely.

To appreciate this car you must see it, ride in it, drive it. Then, and then only, can you understand what a thoroughly great achievement it represents. Then, and then only, will you realize that \$1375 marks the utmost investment

that any one need make for the utmost in automobiling.

And please don't accept this statement lightly or too skeptically. At least do yourself justice by checking up the facts.

Let us make you a definite proposition. Go to the show room of the Paige dealer where this new car is on exhibition. Ask him to give you a thorough demonstration over any road conditions that you may select.

Then, when you return to automobile row, drive the Paige right up along side any motor car that is now offered on the American market—and compare the two feature for feature.

See for yourself whether the Fairfield is lacking in any one detail that argues for greater efficiency, comfort or luxury. See if any car—at any price—can offer more intrinsic value than the Fairfield at \$1375.

If we have overstated our case, you will know it just the minute that you have completed such a comparison. If, on the other hand, we are right—and we sincerely believe that we are—then you will have done yourself a real service and we shall both be the gainers.

Surely no proposition could be fairer than this. Surely no intelligent man can afford to purchase any car until he has made an impartial investigation of this kind.

Will you see the new Paige Fairfield today?

Difference of the Sexes. The powder put is upheld by our trage leaders as an "aid to salvation." A shining nose is a handicap to the put up with bald heads that gleam and glisten.—Detroit News.

We Conquered nature. "Yes, gentlemen," said the geologist, "the ground we walk on was once under the sea." "Well," replied the patriotic Frenchman of the party, "it simply goes to show that you can't hold this country for."

OBITUARY.

Raymond L. Langerman, the seven-year-old son of Mr. and Mrs. John Langerman, died after a brief illness, last Tuesday, June 27. Short funeral services were held at the grave where a number of friends assembled, it not being permitted to hold services at the home.

Raymond was an only son, and a bright, active, happy boy. He will be greatly missed in the home by the parents and his little sister, Florence.

The family have the deep sympathy of their many friends and neighbors in their sad bereavement.

Score One for Sandy. Pat and Sandy were discussing the merits of their respective regiments, and each one was of the opinion that his own was the best. "Why," said Pat, "whin our colonel is dhamasin' us men?" "That dhamasin' is countin' for muskies," replied Sandy. "Gin our colonel wis the say that, a' the regiment wud a cot."

All She Said. Man of the House—"Why did you tell my wife what time I came in this morning, after I expressly told you not to?" The Cook—"Sure, Oi didn't tell her; She asked me what time ye got in an' Oi told her Oi was so busy gettin' the breakfast that Oi didn't look at the clock."—Town Topics.

Singular Inscription.

Under the Temple clocks, in London, is a singular inscription, the origin of which was an accident. Nearly 200 years ago a workman was employed to repair and put a new face upon the clock, and when his work was nearly done, he asked the officials of the Temple for an appropriate motto to carve upon its base. They promised to think of one, and a week after week he came for their decision, but was always put off. One day he found them at dinner. "What motto shall I put on the clock, your lordship?" he asked of a learned judge.

"Oh, go about your business!" his honor cried, angrily.

"A very suitable motto, for a lazy, dawdling gang," the clockmaker muttered, as he retired. Then he had carved on the base, "Go about your business!"

Hard to Eradicate Fleas. A nest of wasps will kill from 3,000 to 4,000 flies a day, but the one or two they may miss will breed about 25,000-750 more before the avengers can get back on the job next morning.
