## A New Machine at the First National Bank

This machine is really a wonderful set of steel brains which we are putting to work in our accounting department.  
With it we can handle our figure work faster than ever before and at the same time be sure that every item in our books is right.

Everything Is Done Automatically  
It prints dates, adds your deposits to the old balance, subtracts checks, figures a d prints your new balance. All of this is done automatically. The operator simply writes the amounts on the keyboard—the machine shifts from column to column and adds, subtracts, or prints the date as desired, without the least attention being necessary.

### Helps Us Give You Better Service

By the machine method, every depositor's account is kept in balance all the time and there are no mistakes such as are unavoidable with other ways of handling figures.

Thetime-saving made possible by the machine gives us an opportunity to improve the service to our customers in all departments of the Bank.

### Come In and See It Work

There is no method of posting ledgers known which equals this Burroughs Book-keeping Machine in either accuracy or time-saving.  
Come in and see our new Burroughs work in our accounting department.

### Quality in Coffee is More Essential than Quantity

You get premium with Nero Coffee. Our Nero Coffee is so good that we can't afford a premium. It's quality you want when you buy coffee—not an installment on a dish pan.

### NERO COFFEE

Why not buy Nero at 25c and be assured of a delicious cup of coffee and save 10c toward something you really want more than a premium. When you have tried one package of Nero you will understand why it is better to buy quality with coffee rather than quantity.

Quality Thought.  
Be careful to have your socks well instructed rather than rich for the sake of the instructed are better tinged by the color blind, except the wealth of the ignorant—have advocated blue circles with wide zigzags.  
Suggest New Danger Colors.  
As a substitute for red in danger signals, yellow is the color less easily confused by the color blind.
