GRAIN AND ALFALFA HAY FOR THE LAMBS

Grinding Not Profitable Under Present Conditions, According to Nebraska Station.

Experiments conducted at the Nebraska Experiment station during the last winter indicate that the grinding of grain and alfalfa hay for lambs is not profitable under present conditions. While lambs fed a mixture of ground corn and ground alfalfa went on full feed quickly, and their feed cost per pound of gain was lower than that of lambs fed whole corn and whole alfalfa, the increased weight was not commensurate with the extra feed required. It was strikingly noticed in comparing lambs fed on ground corn, ground alfalfa, and corn silage and those fed whole corn, whole alfalfa, and corn silage.

GREAT AID OF BEEF AND PORK PRODUCER

Set All Gain on the Calves and Pigs During Early Months of Their Lives.

The aim of the beef and pork producer should be to set all the gain in the calves and pigs during the early months of their lives. Calves make much cheaper gains up to ten months old and pigs up to six months old than they do after these periods.

It is not uncommon now to see well finished baby beef steers on the market at the age of twelve to fifteen months and occasionally some come in at less age than that. While the bulk of the hog nose come to the market in well finished condition at eight months old weighing around 220 pounds.

Disrupt Cot's Quarters.

Don't forget to plan for some Canada field peas or other valuable legumes. If you have had no experience with them, a few trials will soon show how you can best handle these "soy-binders."

Stick to Money-Makers.

How many of you are experimenting because we had no legs to sell? May be we will know enough to stick to the proven money-makers through thick and thin hereafter.

Efficient Work Horses.

Remember that horses in the harness do a great deal of their work efficiently, a little extra time in feeding and grooming is well spent.

Efficiency

Efficiency built the Panama Canal, after inefficiency failed. The efficiency of the Panama Canal doubled the effectiveness of the U. S. Navy without adding a ship to it. It took over 8,000 miles out of the trip from New York to San Francisco and changed the highway between London and Australia from Suez to Panama.

Efficiency insures against lost motion—it produces the utmost service out of equipment and yields the finest product, at the least cost.

Certain-teed Roofing

is an efficiency product

Every advantage that men, money and machinery can offer is used to increase the production, maintain the quality and lower the cost. Each of the General's enormous mills is advantageously located to serve the ends of efficient manufacture and quick distribution. Each is equipped with the most up-to-date machinery. Raw materials are purchased in enormous quantities and far ahead of the needs of manufacturing, thus guarding against increased cost due to idle machinery. This also insures favorable buying, and the pick of the market.

Expert chemists at each mill are employed to select and blend the asphalt, and every roll of CERTAIN-TEED is made under their watchful care.

CERTAIN-TEED resists the drying-out process so destructive to ordinary roofing, because the felt is thoroughly saturated with a blend of soft asphalt, prepared under the formula of the General's board of expert chemists. It is then coated with a blend of harder asphalt, which keeps the inner saturations soft. This makes a roofing more pliable, and more impervious to the elements than the harder, drier kind.

CERTAIN-TEED is made in rolls, also in slate-surfaced shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest skyscraper to the smallest residence or out-building.

CERTAIN-TEED is guaranteed for 10 or 15 years, according to type. Experience proves that it lasts longer.

It is no new experience for settlers located in a fertile country such as Western Canada, where lands may be had for \$100 or reasonable prices, to harvest a crop of home season pigs the entire cost of their farm. Undoubtedly this was the experience of many farmers during 1915, but one instance may be quoted. A settler who had come to Canada from the United States some years ago decided to add to his holdings by buying an adjoining quarter section near his home at Wapiti, at \$200 an acre, with terms spread over a period of years. He got the land in good state of cultivation and last spring sent the whole quarter section in wheat. When the crop was threshed he found that it only took half the wheat on the farm to pay the whole purchase price of it. In short a single year's crop paid the cost of the land, paid him a handsome operation and left him a balance as profit. This result was made possible by the use of a home season pig crop for the season and his whole wheat crop for the season and his whole wheat crop for the season and his whole wheat crop for the season.

Prompt Relief

from all the common ills of the digestive organs—weak stomach, torpid liver and sluggish bowels—is found in the always safe, sure, quick-acting

Cures Constipation, Indigestion, Headache, Biliousness.

After Eating SMALL PILL, SMALL DOSE, SMALL PRICE. Genuine must bear Signature.

Now in Good Health Through Use of Lydia E. Pinkham's Vegetable Compound. Say it is Household Necessity. Doctor Called it a Miracle.

All women ought to know the wonderful effects of taking Lydia E. Pinkham's Vegetable Compound even on those who seem hopelessly ill. Here are three actual cases:

Harrisburg, Penn.—"When I was single I suffered a great deal from female weakness because my work compelled me to stand all day. I took Lydia E. Pinkham's Vegetable Compound for that and was made stronger by its use. After I was married I took the Compound again for a female trouble and after three months I ceased what the doctor called a growth. He said it was a miracle that it came away as one generally goes under the knife to have them removed. I never want to be without your Compound in the house."—Mrs. Anna Kross, 194 Fulton St., Harrisburg, Penn.

Hardly Able to Move.

Albert Lea, Minn.—"For about a year I had sharp pains across my back and hips and was hardly able to move around the house. My head would ache and I was dizzy and had no appetite. After taking Lydia E. Pinkham's Vegetable Compound and Liver Pills, I am feeling stronger than for years. I have a lot of better months now and am doing my work all alone. I would not be without your remedies in the house at any time."—Mrs. E. B. Yost, 611 Water St., Albert Lea, Minn.

Three Doctors Gave Her Up.

Pittsburg, Penn.—"My medicine has helped me wonderfully. When I was a girl 15 years old I was always sickly and delicate and suffered from nervousness. My three doctors gave me up and I would go into consumption. I took Lydia E. Pinkham's Vegetable Compound and with the third bottle I felt better. I soon became regular and I got strong and shortly after I was married. Now I have two nice, stout, healthy children and am able to work hard every day."—Mrs. Clara Strain, Durango, 34 Gardner St., Troy Hill, Pittsburgh, Pa.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice. It will be confidential.
