WHERE Will You Buy?

Intending to buy some Furniture, Rugs, etc., perhaps you pick up a newspaper and scan the advertisements. Taking it for granted that you can get the goods advertised at the prices given (which, however, is doubtful), you may find that by buying here and there it looks as if you could pick up some bargains.

Advertised as Bait

Now, these bargain articles are, as a general rule, offered with the intention of drawing you to their stores to sell you goods on which a bigger profit is made. You cannot tell by the advertised article what prices other articles are sold at, for usually the lower the advertised prices the higher are the advertiser's unadvertised prices. For the lower the high-expense city dealer sells some articles, the higher he has to sell the rest of them up.

But will you feel right about going here and there, and buying these advertised bargains when the advertiser does not wish to sell you, and which, so I have been told, in some stores a clerk is in danger of losing his position if he does sell? Try it anyhow.

Now, why not rather fetch these same advertisements to our store and see how you can get these advertised bargains here for less, and everything else at the same low prices? We can do this for while we buy in solid carloads and do as large or larger volume of business than many of the downtown stores, yet being in a suburban town our expenses are but a very small fraction of the big city dealers'.

Rapid Growth

That my assertion as to low prices and high quality Furniture, Rugs, Stoves, etc., must be true is proved by the tremendous increase in my business. Last year my cash sales were \$1,881,898, more than they were for the corresponding week a year ago. We deliver in Birmingham.

Come now, you Furniture buyers, who really wish to save money on Furniture, Rugs, Stoves, etc. Take your auto or the interurban and visit our big \$50,000.00 stock at Royal Oak and see why we are doing the tremendous business we are.

YOU ARE READING THIS AD.—OTHERS WILL READ YOURS

Most everybody reads the ads in this paper. They furnish as much news to the man in town as do the farm.

As the personal and often most, of Jones Smith's wife wants a new hat, Smith asks by the paper that Jones is selling hats at so much. John Smith asks, in making the paper—Jones's trying a non-advertising policy.

RESULT—Jones gets Smith's money
Smith's wife gets her hat.
