Harroun Motors Stock LISTEN:

The man who bought this stock at \$5.00 per share last month bought it when the company had no orders for cars to speak of, only an option on their proposed plant at Wayne, and no car on exhibition.

Who bought this Stock? Largely the automobile man, and those interested in the business of building cars. Why? Because they know Ray Harroun and his associates and had faith in his and their ability and honesty. They knew he had the car. The car was a winner and the price was right.

RESULT, a large sale of this stock; the price advanced as it should; and today you find the Harroun Motors Corporation with orders on its books for over 91,368 cars from 259 dealers. Eleven Million dollars worth of cars ordered for export, thirty acres of the plant at Wayne bought and peid for and the balance of twenty-five acres awaiting only perfection of title—contract let for buildings costing \$400,000 and erection started. Money in the Detroit banks for the contract payments.

Can you beat this record? Is not the stock at the present price a bargain?

You have only until next Tuesday, the 21st, to secure this stock at \$5.50; after the 21st dvances again. We have bought and paid for a large block of this stock at the same figure
