FOLEY'S HONEY AND TAR

Middle Age.
There comes a clear day when one realizes that clothes are to keep the weather off you, that food is to give you health, that home is shelter and inspiration; that, aside from being clean and inoffensive, one's personal appearance does not signify very much; that the main thing in life is to be going along toward the goal of your ideals. That isn't getting old, it's getting sense. From then on "time is not master, but friend"—Collings.

Poor Goss.
Sunday School Teacher—"Children, do you know the house that is open to all—to the poor, the rich, the sad, the happy, to man and to woman, to young and to old—do you know the house I mean?" "Small Boy—"Yes, miss—the station house."—Boston Transcript.

Should Be Fried on Both Sides.
From the Rockefeller Institute comes the statement that if an egg is fried on one side only there are so many bacteria which take refuge on the un-fried side that they may make one ill, but if the egg is cooked on both sides the bacteria cannot escape death and the egg may be eaten with no fear of the consequences.

Lines almost inextinguishable.

PRETTY HOME WEDDING.

A quiet but attractive home wedding took place Thursday evening of last week, when Miss Leota Fern Uptegraff, only daughter of Mr. and Mrs. William Uptegraff, of 301 East Maple Avenue, became the wife of Earl Gleason Potter, of Highland Park. Rev. Penton O. Fish officiated. The bride was attended by Miss Frances Potter, of Flint, and Charles O. Beck, of Highland Park, as best man. Marguerite Sandford and Mary Medbury were ribbon girls and Evelyn Schumacher and Maxine Sturgeon, flower girls, while the bride's brother, Master Gerald Uptegraff, was ringbearer. Mrs. Leo Corning sang and as Mendocino's Wedding March was being rendered by Miss Mabel Goodfellow, the bride, escorted by her father, took her place before an improvised altar. A pink and white color scheme was observed in the decorations. The bride wore a gown of ethereal net over satin with lace and pearl trimmings; also a tulle veil and her bouquet was a shower of white roses and lilies of the valley. The bride is a graduate of the Michigan Conservatory of Music, having been supervisor of music and art in the West Branch schools for the past three years, while the groom is a graduate of Hillsdale College and head of the commercial department of Highland Park high school. About 60 guests were present. Mr. and Mrs. Potter left for a northern trip on the lakes and will be at home after September 10, at 305 East Maple Avenue, Birmingham.

CLEAN HANDS.

Disease germs lead a hard to mouth existence. If the human race would learn to keep the unwashed hand away from the mouth, many human diseases would be greatly diminished. Wash hands frequently, matter more or less constantly and we continually carry the hands to the mouth. If the hand has recently been in contact with infectious matter, the germs of disease may in this way be introduced into the body. Many persons wet their fingers with saliva before counting money, turning the pages of a book, or performing similar acts. In this case the process is reversed, the infection being carried to the object handled, there to await carriage to the mouth of some other careless person. In view of these facts, the U. S. Public Health Service has formulated the following simple rules of personal hygiene and recommends their adoption by every person in the United States. Wash the hands immediately before eating, before preparing or serving food, after using the toilet, after attending the sick, and after handling anything dirty.
