The readers of this paper will be pleased to learn that Bertie, the little one-treaded disease that since has been able to cure in all its stages, and that is catarrh, Burt's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving relief by patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in this cure that they offer \$100 for any case that it fails to cure. Send for list of testimonials. Address P. O. Box 262, Woodland, Ohio. Early Birds Company.

Road shows of the Independent Burlesque Circuit, which make only the principal cities of the United States, will appear at the Avenue Theatre, Detroit, beginning with next Sunday's matinee after which the weekly change of bills will be on Mondays instead of Mondays as heretofore.

The first company to appear under the new arrangement will be the Early Birds Company, one of the best organizations on the circuit, headed by James A. Daitley, the Irish comedian. Mr. Daitley is surrounded by a company of principals and a chorus of beauty, singing and dancing ability that promises to stand the acid test for burlesque productions. The company will have new songs, new jokes, new scenes, new costumes; in fact, a production that will please the audience from the first to the final curtain is assured.

The company includes burlesque stars, prima donnas, sopranos and comedians of the first rank. They will be daily matinees.

Early Marital Mast.

Almost from time immemorial our soldiers have marched to battle to the tune of the drum or the stirring of the pipes. Hence the story of the heroism of the brave warriors of the past. However, the most interesting of the early records of marital mast is that concerning an episode in 1333, the date of the battle of Halston hill, when the English mynstrils beaten their tabors and blew their trumpets, and pipers piped loud and m'j's a great echow as upon the Scot's.

Man found to succeed. It is the man who carefully pegs his way up step by step, with his mind becoming wider and wider, and progressively better able to grasp any theme or situation, persevering in what he knows to be practical and concentrating his thought upon it, who is bound to succeed in the greatest degree.—Alexander Graham Bell.
