THIRTY-NINTH YEAR, NO 19

BIRMINGHAM, OAKLAND COUNTY, MICHIGAN, FRIDAY, SEPTEMBER 8 1916.

WHOLE NUMBER, 1913.

YOUNG MAN SHOT

Unknown Assallant. No Clue to the Murderer.

No doubt, the most excitement that ever occurred in Birmingham in one evening came Wednesday night about 10:30, when an unknown murderer shot

ewer occurred in Birmingham in one ewening came Wednesday night about 10:30, when an unknown murderer shot three men, all our own people, with two shots from an automatic 32 revolver, using steel bullets, brase casted.

After closing his fruit store, Tuesday ewe, Sam Nocoroto, a Greek, aged 32, with his clerk, Owen Stone, a husky young man, started for home. With them went the young men, chums and pais. Edward Crawford, son of John W. Grawford, of Southfield, Frank Gordon, and Thomas Luseombe. From the store the crossed Maple Avenue and down Fieres Street to Maçten Stone, a husty of the started of t

Treely.

As soon as the firing began, the three boys, of which Crawford was one, scattered and field. Crawford ran back up. Pierce Street to the rear of the post-first to reach the spot and hear him stay: "I'm shot; I will die." Eley say first to teach the spot and hear him say: "I'm shot; I will die." Eley say first aid to all the wounded. The short of the street was the street with the street was the st

peared on the spot in an incredibly short time. Search was promptly made, but at this writing, with no suc-

cess.

The family of Edward Crawford have the heartfelt sympathy of a host of friends, Their sudden sorrow is beyond words to console them for their great loss. words to console them for their great loss.
The stories that flew over town Wednesday phas belief. Everyone had a theory and seemed to tell if for a fact, so that it was almost impossible to get the truth.
Wasit an attempt to rob the Greek Nocoroto, or a Mafia act of vengeance:

To strengthen the muscles and gath

the market are variations by not yith perhaps variations by not radically different. And will you, if you can afford to pay \$100 or over for spussed instrument, be content with mold-style talking machine when for this price you can get the best—the very latest—an Edison New hiel

hitest—an Edison New
Diamond Disc — which
does hot it reduce music somthing like the original, but really
re-reates the original music?
The Edison is patented, so there
is no other like it. Indestructible records—no needles to change
Now, for a short time D. K.
Smith will be glad to put an Edison in your home on trial, and
he is also quoring very special
terms of payment just now.

It's Different

People who are not posted are apt to think of Phonographs as being about all alike. This is true of all except

Edison's New Diamond Disc

They are practically the same as they were 18 or 20 years ago. The patents have expired so that now the market is flooded with dozen's of different 'olas. It seems as if every piano factory, so well as a lot of others, has just now started making talking machines. They are all undeubtedly good, and will satisfy those who are satisfied with talking-machine music.

Not Satisfied

NOT Mattsfled
But talking-machine music did
not satisfy Thomas A. Edison.
He wanted an instrument that
would re-create music perfectly,
so that it would not be told from
the original. September Munsey's has an interesting article
on Edison. It tells of his Insommia Squad, organized for work
on the New Diamond Dise Phonographs—flow they worked 140
to 150 hours out of the 168 in a
week onit. 972.511 experiments
to get just one part of the New
Diamond Dise reproducer right.

Up to Date

This was 4 years ago. Somewhat later the New Diamarket; but improvements did not cease then. Improvements were made as late as last May.

Conclusion

Now, would Edison spend years of his valuable time and millions of, dellars and be satisfied if he had not produced something far superior to the talking machine of the past 20 years, of which all other talking machines now on the market are duplications.
