WHERE THE WORLD OF THE FUTURE

The United States and Canada Have a Great Responsibility.

This is the day when the farmer has his indignities. The time when he is made to feel that the farmer is the "poor man" of the world. The farmer has never been called derisive, but still there is in the air the infection that is spreading in an inferior position. The chief cause of this is the farmer's own fault. He has not kept up with the progress of the world. He has not kept up with the progress of the world. He has not kept up with the progress of the world.

BEEF CATTLE ON PASTURE IN CORN BELT.

(Prepared by the United States Department of Agriculture.)

Although there are a number of factors that govern the profitability of the beef-growing enterprise, an important one is the amount of feed available. The amount of feed available is largely determined by the amount of corn raised. The amount of corn raised is largely determined by the amount of land available for corn raising.

THE TRUTH ABOUT ECZEMA AND PILES

Thousands and thousands of people, says Peterson, are suffering every day from eczema and piles. The eczema and piles are a result of the poor quality of the food that we eat. The eczema and piles are a result of the poor quality of the food that we eat. The eczema and piles are a result of the poor quality of the food that we eat.

Met Him Face to Face.

One of those persistently wrong-headed persons who voted against votes for women was asked by a cowardly acquaintance how he had dared vote as he had done in face of the fact that his wife was an ardent and leading upholder of the cause.

"Not only that," said the wrong-headed person, "but only that she was actually a voter at the polling place where I voted."

He added that the world was going to the dogs.—New York Post.

BEAUTIFUL COLOR EFFECTS IN HEDGES

By L. M. BENNINGTON.

One of the most beautiful hedges is made by planting scarlet salvia in a row as a background, then a row of white noddia, with blue ageratum as a border. In this combination we get our patriotic colors. While the vivid blue of the ageratum and the flaming scarlet of the salvia would be anything but a pleasing note if planted next to each other, the intervening white noddia, softens and blends the colors so that the effect is a thing of beauty.

HIGH PRICED FEED NEEDED FOR STOCK

Satisfactory Returns Cannot Be Expected From Fattening Inferior Animals.

Along with the high prices farmers are now realizing for their live stock, the high priced feed necessary to raise the stock is also a fact.
