Soldiers' Home at Grand Rapids Asks \$250,000 a Year for Maintenance.

(By W. L. CALNON.)

Lansing—Township affairs throughout the state will be the subject of township government, but fair to occupy much of the limelight during the 1917 session of the legislature.

Rep. Patrick O'Brien, of Iron River, wants to make drastic changes by amending the constitution so that township highway commissioners no longer would be elected, but would be appointed by the township trustee.

His idea is to get greater efficiency in road work by having only experienced men employed, who would have to work in connection with plans prepared by the county surveyors.

O'Brien thinks that in this way the whole good roads movement would be systematized in the county.

The Iron River legislator also would like to have township tax assessments published just before the year-end review start work on them.

Rep. Hulke, of Clinton county, has introduced a bill putting all village presidents and trustees on salaries of \$100 a year.

has put in a bill that calls for a state road of \$900 a mile for screened gravel roads that are 20 feet in width, and 1000 a mile for concrete roads 20 feet in width.

The honor of being first to have a bill reported out in the senate has already in committee.

Township officials may borrow money to meet necessary expenses where the people have failed to vote such money, if a bill put in by Rep. Wells refers to the township trustee.

Rep. Croft, of Clare county, wants the legislature to put through, quickly and without delay, a bill to amend the constitution so that drainage districts may issue bonds for drainage purposes.

Taxing of timber removed from private forest reserves that are exempt from taxation while the timber stands is aimed at in a bill offered by Rep. O'Brien.

The normal school at Marquette wants \$75,000 for a new building, \$95,000 for next year, \$75,000 for the year after and \$3,000 for special purposes.

Seems as though some sheriffs and township assessing officers haven't been paying strict attention to the terms of the law subject to removal from office.

Not having been as thoroughly obeyed as the law requires, the Grand Trunk round house at Battle Creek is to be removed.

Two more Michigan newspapers have suspended publication for failure to pay their taxes.

A link in a valve at the Flint plant was discovered to be contaminated by the oil and kerosene.

Joseph M. Truman, a foreman in the better room of the Bohemia & Rausch paper mills of Monroe, was severely injured.
