W. L. DOUGLAS

"THE SHOE THAT HOLDS ITS SHAPE"

$3 $3.50 $4 $4.50 $5 $6 $7 & $8 FOR MEN AND WOMEN

Save Money by Wearing W. L. Douglas shoes. For sale by over 9000 shoe dealers.

The Best Known Shoes in the World

W. L. Douglas name and the retail price is stamped on the bottom of all shoes at the factory. The value is guaranteed and the wearer protected against high prices for inferior shoes. The retail prices are the same everywhere. They cost no more in San Francisco than they do in New York. They are always worth the price paid for them.

The quality of W. L. Douglas product is guaranteed by more than 40 years experience in making fine shoes. The smart styles are the leaders in the Fashion Centres of America. They are made in a well-equipped factory at Brockton, Mass., by the highest paid, skilled shoemakers, under the direction and supervision of experienced men, all working with an honest determination to make the best shoes for the price that money can buy.

Ask your shoe dealer for W. L. Douglas shoes. If he cannot supply you with the kind you want, take no other make. Write for interesting booklet explaining how to get shoes of the highest standard of quality for the price, by return mail, postage free.

HORSE SALE DISTEMPER

You know that when you sell or buy through the sales you have about one chance in fifty to escape SALE STABLE DISTEMPER. "SPOHN'S" is your true protection, your only safeguard, for as sure as you treat all your horses with it, you will soon be rid of the disease. It acts as a sure preventive, no matter how they are "exposed." 50 cents and $1 a bottle; $5 and $10 dozen bottles, at all good druggists, horse goods houses, or delivered by the manufacturers.

SPOHN MEDICAL CO., Chemists, Goshen, Ind., U. S. A.

He Got His Wish.

The conjugal dispute waxed loud and furious. Mrs. Blank said, "Yes, yes; it was so," and Mr. Blank said, "Pooh, pooh! It was not so."

In the end came tears. Then Mrs. Blank fell to reproaches.

"I was reading one of your old letters, James, only today," she sobbed, "and you said in it that you would rather live in endless torment with me than in bliss by yourself."

"Well," grunted Blank, "I got my wish."

"Can't Cut Off My Leg," Says Railroad Engineer

"I am a railroad engineer; about 20 years ago my leg was seriously injured in an accident out West. Upon my refusing to allow the doctor to amputate it I was told it would be impossible to heal the wound. I have tried all kinds of salves and had many doctors in the past 20 years, but to no avail. Finally I resolved to use PETERSON'S OINTMENT on my leg. You cannot imagine my astonishment when I found it was doing what over 100 things had failed to do. My leg is now completely cured."—Gus Hauft, 709 Myrtle Ave., Brooklyn, N. Y.

"It makes me feel proud to be able to produce an ointment like that," says Peterson. "Not only do I guarantee Peterson's Ointment for old sores and wounds, but for Eczema, Salt Rheum, Ulcers, Itching Skin and Blind, Bleeding or Itching Piles, and I put up a big box for 25 cents, a price all can afford to pay and money back from your druggist if not satisfied." Adv.

Holds Broomcorn Championship.

Oklahoma raises more broomcorn than all of the rest of the United States combined. A shortage of the crop last year in other parts of the nation stimulated the farmers of Oklahoma to add a few acres to the area of 1916. The Lindsay district, in Garvin county, is the favored spot of the state. From that section enough "brush" was shipped last year to make 10,000,000 brooms.—Daily Oklahoman.

FRECKLES

New In the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine — double strength — is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

Sweden's Iron Deposits.

Experts have estimated the iron ore deposits of Sweden at about 1,300,000,000 tons.

A French inventor's collapsible boat can be folded and carried within an ordinary suitcase.

Died of Premature Old Age!

(BY V. M. PIERCE, M. D.)

How many times we hear of comparatively young persons passing away when they should have lived to be 70 or 80 years of age. This fatal work is usually attributed to the kidneys, as, when the kidneys degenerate, it causes autointoxication. The more injurious the poisons passing thru the kidneys, the quicker will those noble organs be generated, and the sooner they decay.

To prevent premature old age and promote long life, lighten the work of the kidneys by drinking plenty of pure water all day long, and occasionally taking Anuric (double strength) before meals. This can be obtained at drug stores. Anuric will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine and sleeplessness due to constant arising.

FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach, liver and bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Adv.

Good for the Nerves.

To obviate the noise of pneumatic riveting machines, one has been invented that squeezes rivets into place with a pressure of a ton.

The Quinine That Does Not Affect The Head Because of its tonic and laxative effect, Laxative Bromo Quinine can be taken by anyone. There is nothing harmful or nothing to upset. There is only one "Bromo Quinine." E. W. GROVE'S signature is on each box. 25c.

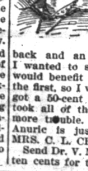
California is soon to have the largest walnut packing establishment in existence.

Pure blood is essential to Good Health. Garfield Tea dispells impurities, cleanses the system and eradicates disease. Adv.

Love is never satisfied until it gets both arms full.

WHAT NEIGHBORS SAY

Delphos, Ohio—"I saw the Anuric Tablets advertised and sent for a trial package. I had doctored a good deal for ten years, but I never got any better. Sometimes I was disturbed three to four times at night. Never any pain, just uneasiness. I had a soreness in my back and an awful weak back, so I wanted to see if the trial package would benefit me. I felt better from the first, so went to the druggist and got a 50-cent box of the tablets and took all of them and never had any more trouble. After that I can say Anuric is just as recommended."—MRS. C. L. CRAMER.



Send Dr. V. M. Pierce, Buffalo, N. Y., ten cents for trial package.

Canada Offers 160 Acres Free to Farm Hands

Bonus of Western Canada Land to Men Assisting in Maintaining Needed Grain Production

The demand for farm labor in Canada is great. As an inducement to secure the necessary help at once, Canada will give

ONE HUNDRED AND SIXTY ACRES OF LAND FREE AS A HOMESTEAD

and allow the time of the farm laborer, who has filed on the land, to apply as residence duties, the same as if he actually had lived on it. Another special concession is the reduction of one year in the time to complete duties. Two years instead of three as heretofore, but only to men working on the farms for at least six months in 1917. This appeal for farm help is in no way connected with enlistment for military service but solely to increase agricultural output. A wonderful opportunity to secure a farm and draw good wages at the same time. Canadian Government will pay all fare over one cent per mile from St. Paul or Duluth to Canadian destination. Information as to low railway rates may be had on application to

M. V. MacINNES, 176 Jefferson Ave., Detroit, Mich.

Canadian Government Agent

18,000 TON FRENCH BATTLESHIP SUNK

U-BOAT TORPEDOES WARSHIP GUARDED BY DESTORYERS, IN MEDITERRANEAN.

CARRIED ABOUT 680 MEN

Ship Was of the Danton Class and One of Six Built for the French Navy in 1909-10.

Berlin, by wireless to Sayville, N. Y.—A French battleship of the Danton class was sunk by a German submarine in the Mediterranean.

The warship was protected by destroyers and was running a zig-zag course trying to escape the U-boat.

Warships of the Danton class displace 18,028 tons. The complement consists of 681 officers and men. There are five battleships of the Danton class, in addition to the name ship, the others being the Mirabeau, the Diderot, the Condorcet, the Vergniaud and the Voltaire. All except the Vergniaud were completed in 1909, she having been finished in 1910.

Ships of the class have a length of 451 feet, beam of 84 feet and draft of 27.5 feet. Their armament consists of four 12-inch guns, 12 9.4-inch guns, 16 2.9-inch guns, 10 three pounders and two torpedo tubes, submerged. They average about 19.5 knots in speed.

HEALER PERMITS BOY TO DIE

No Doctor Called for Flint Boy—Ill With Diphtheria.

Flint—Coroner Henry Cook, acting on the advice of state medical officials, has called an inquest for March 26 to inquire into the responsibility for the death of Jared King, 9-year-old son of Mr. and Mrs. Jared C. King and grandson of Police Justice James M. Torrey.

The boy died Monday night of diphtheria, developing from tonsilitis, and, it is said, he had no medical attention until an hour and a half before death. Up to that time he had been given treatments, it is said, by Emory S. West, self-styled spiritualist healer. No quarantine for diphtheria was maintained and no report was received by the health authorities until Dr. O. W. McKenna, who attended the boy at his death, reported the case to the coroner.

Questioned by Prosecutor Brownell West denied that he had treated the child as a physician, but merely as a healer and said he did not make a practice of treating cases of infectious disease. As soon as the boy's illness developed into diphtheria, he said, he called a physician.

VOTE ON WET ISSUE IN 1918

Liquor Men Plan to Resubmit Question Next Year.

Lansing—"The plan is to resubmit the prohibition question in 1918. Immediately after May 1, 1918, we shall get out petitions for the signatures needed, file them with the secrtary of state, and have the matter submitted at the 1918 fall election." This was the declaration of the intention of the "wets" to have the state-wide prohibition question re-opened, and it was made here by Carl A. Zimmer, president of the Knights of the Royal Ark, the Detroit saloonkeepers' organization, and John Zang, its former president, just retiring.

It is accepted here as settling the question of what the wets will do in the way of struggling against conditions to be imposed on them by prohibition.

The Royal Ark is the strongest organization of retail liquor dealers in the state, and it is understood that in the program, outlined above, the Ark will have the support of the brewing interests of the state. Whether the so-called "Home Rule league" will be revived is a question. Retail liquor men from out in the state are also being lined up for the program.

Traverse City—Cadillac and Scottville have asked for details on the city beautiful campaign here before starting one in these cities.

Traverse City—Pet dogs and cats condemned by the authorities will not be shot or hit in the head with an ax in the future, if a suggestion of the Grand Traverse County Humane society is carried out. The society asks that a metal box be manufactured, to be connected with an electric current. Into these boxes they would put all the condemned pets and kill them instantaneously.

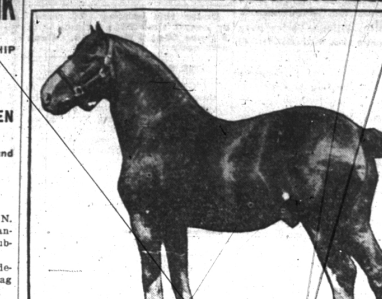
Kalamazoo—The States Motor company, of this city, will be reorganized with an authorized capital of $6,000,000.

Whitehall—Mrs. Christian Biers left her two-year-old daughter in care of a neighbor boy while she went to the village to do some shopping. The boy saw some cattle in the yard and went out to drive the stock away. When he came back, five minutes later, the baby was dead on the floor. All her clothing had been burned off. There was no fire in the stove and how the accident happened is a mystery.

Lapeer—Rev. C. Edward Brown, pastor of the First Baptist church, was knocked unconscious by a scantling while watching the building of a tabernacle for revival meetings.

Flint—Memberships to be paid for by wealthy men are to be presented to boy scouts by officers of the local branch of the Red Cross society, which has a campaign under way to secure 5,000 members. A city wide campaign is being made in churches, factories, schools and offices building, the idea being to create the largest Red Cross chapter in Michigan.

ACTION IN DRAFT ANIMAL IS IMPORTANT



CHAMPION ENGLISH CLYDESDALE STALLION.

Proper action in the draft horse is important, according to David Gray, assistant in animal husbandry in the Kansas State Agricultural college. Size and power are of little value if the horse has not enough agility to handle his big weight in a manner yielding the greatest efficiency.

"Action of the draft horse should be clean, bold, and rather stylish," said Mr. Gray. "In moving, the feet should be carried forward and back in a straight line, without paddling, winging, or other irregularity of gait. In order to get the best and greatest stride with the least energy it is absolutely necessary that the feet move straight and smooth without defects of gait.

"Knee action in the draft horse is not of great importance. A long stride which covers considerable ground is much more important than high knee action, the ability to cover ground of what is wanted.

"The walk is the important gait. It should be snappy and true with a good length of stride. The action of all four legs should be strong and the movement of the knees and hocks free without indication of dragging or stiffness.

Action in Trotting.

"It is essential to note an animal's action in trotting, because defects in action are more perceptible when trotting than when walking, although the walk is more important from a working standpoint.

"In trotting there should be a clean folding of the knee and hock, the feet being carried in a straight line. The hocks should work close together, for if they are inclined to be carried too far out it causes a bandy-legged appearance which is unsightly.

"Careful shoeing in a great many cases will improve the gait of the draft horse, tending to eliminate undesirable features."

RAVAGES OF WORMS CAUSE GREAT LOSS

Infested Hogs Make Gains Slowly, If At All—Iowa Station Gives Good Remedy.

A great loss on all farms where hogs are raised results from the ravages of worms. Great as are the losses from hog cholera, it would not be a very wild assertion to state that even greater losses accrue from worms.

Hogs infested with worms gain slowly, if at all, using up most of their energy in coughing instead of using it for growth and fattening. Furthermore, they are kept in such a weakened condition that they are more susceptible to diseases, including hog cholera, and it may be said with much confidence that hog worms are the forerunners of disease.

They cause disastrous results only where they are permitted to go unmolested. It is not a difficult matter to rid a herd of hogs of them, and many useful remedies have been recommended. The Iowa experiment station has recently offered a simple remedy that will expel worms from hogs with much certainty. The formula is:

Santonin, five grains; areca nut, three drams; calomel, three grains, and sodium bicarbonate, one dram. This amount constitutes a dose for a 100-pound pig. Twice as much should be used for a 200-pound pig, while half as much should be used for a 50-pound pig.

Success from the use of this formula depends upon withholding from the pigs all feed for at least 18 hours before feeding the mixture. To make certain that all worms are expelled, the dose should be repeated in a week or ten days. If all of the ingredients cannot be secured at the drug store, a substitute in the form of seven grains of santonin and seven grains of calomel for each 100 pounds of liveweight may be used with success, administering it in the same manner suggested for the complete formula.

CAUSES OF FAILURE WITH CLOVER PLANT

Lack of Proper Food in Soil, Acidity and Late Freezes Are Among Reasons Given.

(By A. J. LEGG.)

The spring is usually regarded as the best season for sowing clover, and it is likely that this spring will be no exception to the rule that many bushels of costly seed will be sown and the seed lost.

The usual causes of failure are from a lack of proper plantfood in the soil to nourish the young plants, acidity of the soil, late freezes killing the young plants just after they come up, or the nurse crop smothers the young plants.

Clover, in order to succeed, must have plenty of mineral food in the soil, enough nitrogen to give the clover a start and also plenty of moisture.

The soil must be in a condition to hold moisture over a possible dry spell, hence the necessity of a well-prepared seedbed and plenty of humus in the soil.

The oats crop is often used to sow clover with, and it does very well sometimes, and other times the clover is an utter failure.

I often sow clover with buckwheat, and I have never failed yet in getting a stand of clover with the buckwheat crop, even when sown as late as August.

I plow when the buckwheat comes off the stubble helps to protect the young clover, and the ground is not covered with a crop of growing weeds which rob the young clover of both moisture and plantfood, as is usually the case when clover is sown with wheat or oats.

I often turn the wheat stubble, and after harrowing the soil thoroughly let it lie for about two weeks in order to settle down, and then sow buckwheat and clover or timothy and clover about the first of August.

I have never failed to get a good stand of grass and clover and I usually get enough buckwheat to pay for my work.

TIMELY REMARKS ON SPRAY PREPARATION

Power Pump Should Be Used If Best Results Are Expected—High Pressure Needed.

The following timely remarks are taken from a letter sent out to superintendents of Ohio state institutions by S. W. Moore, horticulturist of the Ohio board of administration.

"The power pump is the pump to use if results are wanted. The argument used at some of the institutions by those in charge of the work has been that there is plenty of hand power or labor power and it is economical to use it. This sounds well, but if the practical orchardist were consulted, he would say that the hand pump, aside from the labor of running it, is an expensive proposition, as it is almost impossible to maintain the pressure necessary effectively and economically to cover all parts of the tree or plant; and when all parts are not covered, the application will count for little.

"Success depends first upon the material used. Second upon the application, which means thoroughness. The thoroughness that is necessary can only be obtained with a heavy pressure all the time; not 150 or 200 pounds for awhile, then 75 or 80 pounds. Such a pressure will not force the liquid into all the cracks and crevices; and where some are missed, scale and fungous diseases will be found lurking, ready again to take possession of the plant as soon as weather conditions are favorable.

"If anything is to be done along this line, it is time the spray outfits were ordered. Spray material should be on the way soon, as the clean up or dormant spray should be applied before growth begins. This is true of either tree or vine."

Restore Fertility to Soil.

The cheapest and best way to restore fertility to the soil is through the adoption of some sort of live stock farming.

Hen Delivers Goods.

The rooster is a fair alarm clock, but it takes the hen to deliver the goods.

Lay Eggs on Sides.

Don't stand eggs on end in the incubator. Lay them on their sides.

Conditions in Henhouse.

When the hen is out on the range she is surrounded by clean conditions and plenty of fresh air. This must be supplied in the house. If the house is improperly ventilated and allowed to get filthy, it will tell on the hens by their nonproductiveness.

Hog Breed Values.

All hog breeds are good if used for the purpose for which they were created and bred along practical lines to satisfy the demands of the market.

ARE YOUR KIDNEYS WEAK?

Thousands of Men and Women Have Kidney Trouble and Never Suspect It.

Nature warns you when the track of health is not clear. Kidney and bladder troubles cause many annoying symptoms and great inconvenience both day and night.

Unhealthy kidneys may *cause* lumbago, rheumatism, catarrh of the bladder, pain or dull ache in the back, joints or muscles, at times have headache or indigestion, as time passes you may have a sallow complexion, puffy or dark circles under the eyes, sometimes feel as though you had heart trouble, may have plenty of ambition but no strength, get weak and lose flesh.

If such conditions are permitted to continue, serious *results* may be expected; Kidney Trouble in its very worst form may steal upon you.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalency of kidney disease. While kidney disorders are among the most common diseases that prevail, they are almost the last recognized by patients, who usually *content themselves* with *doctoring the effects*, while the *original disease* may constantly undermine the system.

If you feel that your kidneys are the cause of your sickness or run down condition, try taking Dr. Kilmer's Swamp-Root, the famous kidney, liver and bladder remedy, because as soon as your kidneys improve, they will help the other organs to health.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at all drug stores. Don't make any mistake but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., which you will find on every bottle.

SPECIAL NOTE—You may obtain a sample size bottle of Swamp-Root by enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y. This gives you the opportunity to prove the remarkable merit of this medicine. They will also send you a book of valuable information, containing many of the thousands of grateful letters received from men and women who say they found Swamp-Root to be just the remedy needed in kidney, liver and bladder troubles. The value and success of Swamp-Root are so well known that our readers are advised to send for a sample size bottle. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing be sure and mention this paper.

The Sign of Indian Prosperity.

The ownership of a motorcar may not always be a safe index of material prosperity, but in the case of John Lightfoot, of Arizona, ownership of a car may at least be taken as a proof that the blanket Indian can succeed at dry farming. Mr. Lightfoot is said to possess such a machine, but it is safe to predict that he will not long be the only red man to enjoy this privilege.

GIRLS! GIRLS! TRY IT, BEAUTIFY YOUR HAIR

Make It Thick, Glossy, Wavy, Luxuriant and Remove Dandruff—Real Surprise for You.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp; forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair—growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any store and just try it. Adv.

Friendship.

Mabel—Do you know anything about Tom Brown?

Arthur—Why, Tom is my best friend.

Mabel—I know that, but is he all right otherwise?

GREEN'S AUGUST FLOWER

Few persons can be sick who use Green's August Flower. It has been used for all ailments that are caused by a disordered stomach and inactive liver, such as sick headache, constipation, sour stomach, nervous indigestion, fermentation of food, palpitation of the heart from gases, created in the stomach, pains in the stomach, and many other organic disturbances. August Flower is a gentle laxative, regulates digestion, both in the stomach and intestines, cleans and sweetens the stomach and whole alimentary canal, and stimulates the liver to secrete the bile and impurities from the blood. Try it. Two doses will relieve you. Used for fifty years in every town and hamlet in the United States and in all civilized countries.—Adv.

Pulling up pigeonholes concealed in its top converts a new library table into a writing desk.
