

A Medicine for Women

For Forty Years Lydia E. Pinkham's Vegetable Compound has Relieved the Sufferings of Women.

It hardly seems possible that there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

Mrs. Kieso Cured After Seven Months' Illness.
Aurora, Ill.—"For seven long months I suffered from a female trouble, with severe pain in my back and sides until I became so weak I could hardly walk from chair to chair, and got so nervous I would jump at the slightest noise. I was entirely unable to do my house work. I was giving up hope of ever being well, when my sister asked me to try Lydia E. Pinkham's Vegetable Compound. I took six bottles and today I am a healthy woman able to do my own house work. I wish every suffering woman could try Lydia E. Pinkham's Vegetable Compound, and find out for herself how good it is."
—Mrs. K. A. Kieso, 694 North Ave., Aurora, Ill.

Cincinnati, Ohio—"I want you to know the good Lydia E. Pinkham's Vegetable Compound has done for me. I was in such bad health from female troubles that I could hardly get out of my bed. I had been doctoring for a long time and my mother said to try Lydia E. Pinkham's Vegetable Compound. So I did, and it has certainly made me a well woman. I am able to do my house work and am so happy as I never expected to around the way I do again, and I want others to know it. I wish every suffering woman could try Lydia E. Pinkham's Vegetable Compound has done for me."
—Mrs. Josie Coxnax, 1668 Harrison Ave., Fairmont, Cincinnati, Ohio.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Canada Offers 160 Acres Free to Farm Hands

Bonus of Western Canada Land to Men Assisting in Maintaining Needed Grain Production

The demand for farm labor in Canada is great. As an inducement to secure the necessary help at once, Canada will give

ONE HUNDRED AND SIXTY ACRES OF LAND FREE AS A HOMESTEAD

and allow the time of the farm laborer, who has lived on the land, to apply as residence duties, the same as if he actually had lived on it. Another special concession is the reduction of one year in the time to complete duties. Two years instead of three as heretofore, but only to men working on the farms for at least six months in 1917. This appeal for farm help is in no way connected with enlistment for military service but solely to increase agricultural output. A wonderful opportunity to secure a farm and draw good wages at the same time. Canadian Government will pay all fare over one cent per mile from St. Paul or Duluth to Canadian destination. Information as to low railway rates may be had on application to

Pupley's Fowls.
When Pupley invested in six wares-for-wear hens, he made straightway for the local grocer, and inquired whether that gentleman would give him market price for the produce of his feathered flock.
The grocer smiled at his hopefulness, and told him he would be only too pleased to buy at current rates. To his surprise, Pupley called round with 48 eggs as the result of his hens' first week's exertions. An hour or two after the tradesman had settled the first of the eggs, he called round on Pupley to see how his hens were getting on.
"I'd like to see your hens," he said, "there's something I can't understand about them."
Pupley piloted him down the garden. "There they are," he remarked, "splendid strain. I've given them a good run, you see, but this wet weather they get into a frightful pickle."
"Oh, that accounts for it," answered his visitor.
"For what?"
"Accounts for their laying pickled eggs," said the grocer.

Unbeliever.
"And why are you in prison?"
"The vicin of unbeliever, ma'am."
"Unbeliever!"
"Yes, ma'am. I couldn't convince the jury that I was telling the truth."

Oil of cedar is one of the antiseptic drugs.

There's a good way to keep growing boys and girls healthy and happy and that is to give them Grape-Nuts for breakfast.
This wonderfully nourishing food has a sweet, nutty flavor that makes it popular with children.

THE OLD ANNI OF THE FIRE

CLASSES FROM U. OF T. READY TO OFFER THEIR SERVICES WHEN DEVIATED.

STATE AIMS TO BE READY

M. A. C. State Survey of Farms On Request of War Department In Effort to Increase Crop.

Lansing—Michigan is striving to prepare for war.

Already activities have been started with the aim of making Michigan among the first agricultural states of the United States.

Entire classes from the University of Michigan will offer their services, according to announcement made Tuesday, and they will serve in departments for which their college training fits them.

Food has started the organization of a company for whatever duty they may be called, whether it be at home or overseas. It will be attached to the "Hoosegow army division."

A motorcycle corps is being organized in Mackinac.

The Michigan Agricultural college has started a summer camp for Michigan on a request from the United States war department in an effort to increase crop production.

According to Professor J. C. Parker, of the engineering college, of the U. of M., the whole college is imbued with a spirit of such enthusiasm.

The entire college marine engineering class will offer its services. The teaching staff of the chemical engineering department will go into the several war service corps.

WOMEN OF STATE ORGANIZE

Begin "Preparedness" Campaign to Meet Possible War Conditions.

Lansing—One-quarter of a million Michigan women are to be enlisted in a movement for "preparedness" against the changed economic and social conditions that may prevail during a possible war that now faces the United States.

The initial call for an organization to be known as the "Michigan Women's Committee for Patriotic Service" has been issued by Mrs. O. H. Clark, of Kalamazoo, president of the Michigan Equal Suffrage association, and to purport to organize the women's "preparedness" every woman's organization in Michigan.

The initial meeting of a number of Michigan women are to be held at Lansing, including the chiefs of various women's auxiliaries of fraternal organizations, the state W. C. T. U., the state Equal Suffrage organization and other bodies. They will meet here and a state committee formed.

The Michigan women's committee for patriotic service contemplates the application of some of the lessons learned by the women of the nations now at war in Europe.

It will seek, first of all, to aid women who may require the support by the enlistment of husbands, fathers, or brothers, by a state-wide system of registration of such women and the making of all employment open to them.

Departments to protect women against exploitation, such as has been met with in European countries, will be established.

The increase of the food supply, which might be diminished by a long or general war, will be promoted through the garden cultivation plan.

The elimination of waste in food and the necessity of arming the state as a further method of protection against war when dependents are deprived of support.

MORE GUARDS ARE CALLED

Makes a Total of Over 45,000 Men Available for Police Duty.

Washington—Nearly 15,000 men were added Tuesday to the national guard force available for federal police duty by a war department order suspending the muster out of all guard organizations still in the federal service. With the men called out during the past few days this gives the government upwards of 45,000 guardsmen for employment in their home states to protect industries and other property.

Most of the men affected by Tuesday's order were at their home mobilization camps preparing to return to civilian life after long stays on the Mexican border. They now will be held at their homes for assignment as conditions require.

The Vast Pampas

Only a few miles from Buenos Aires one comes upon the pampas. This sweep of level plain covers roughly two million square miles, and a large range of territory nine times the size of New England and double the size of Mexico. There are unbroken stretches of 2,000 miles of level land, across which the traveler may pass for hundreds of miles and hardly see a snow-capped mountain, a drop of water's edge, while from lesser mountains could be seen the rivers of which the slow-moving waters of the Rio Plata was striking low. Its rays pointed

Photographing Wild Flowers

Edwin Hild Lincoln of Pittsfield, Mass., has pursued one hobby for 23 years—the photographing of wild flowers. In that period Mr. Lincoln has obtained 400 pictures of the wild flora of Berkshire county, and he has been successful in securing the most complete collection of wild flowers in the state by students in the foremost art schools and universities of America, so his work has not only wide recognition, but also the commendation of a financial nature. But it has been to Mr. Lincoln himself a work of pleasure and instruction in many ways. He has learned of the life and along winding roads leading into the unfrequented places where the elocution silences are.

Harmony Above All

A garden should not be considered as a piece of wild nature, nor placed as architectural ornaments, for one must not do violence to the nature. Above all, there should be harmony. Otherwise the builder has been in vain, for he has not made a picture that artists care to reproduce.

Harmony Above All
