Few Lebanon Cedars.

There are now only about 400 of the cedars of Lebanon left in the grove from which Solomon obtained the wood for the Temple at Jerusalem. The best preserved are about 100 feet high and 40 feet in circumference at the base. They are more than 2,000 years old; in fact, tradition says they never die, having been planted by God on the third day of the creation, and that they will perish only with the end of the world.

Inevitable Result.

The car turns turtle just when the driver is feeling certain that gasoline mixed with whisky makes 60 miles an hour as safe as it is delightful.—Louisville Courier-Journal.

Same Old Stuff.

A letter from a Babylonian master to his servant 2,200 years before Christ, has been translated at the University of Pennsylvania. An accurate report of its contents has not yet reached this office, but this is the tenor of it: "My Good Man: Owing to the present high prices in raw materials, and incidentally the consequent expenses of operation, it is impossible at present to give you the increase in salary you asked for. Do not despair however. Good service never goes unrewarded.—The Boss."

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constant failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer $100 for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & Co., Toledo, Ohio. Sold by druggists, 75c. Take Hall's Family Pills for constipation.—Advertisement.

Seagulls Foretell Weather.

Seagulls are undoubtedly weather prophets. Dwellers on the coast have noticed that when certain winds begin to blow the gulls collect in large flocks and fly to the fields or circle high over the land, screaming all the while uneasily. After such demonstrations it is said that a rainstorm is certain to follow.
