ning, February 28. Various games, var-
ious musical selections were enjoyed, amon-
g them being a piano duet by Messrs. Ar-
thur Heacock and Melvin Deer. Re-
freshments were served.

Pushing your clock ahead and forget-
ting it is productive of queer results.
It may make some people think they
are getting more daylight, and it cer-
tainly gets the poorer boys all tangled
up. For instance, the make-up in our
branch office, in Detroit, where the giz-
zard is manufactured, and placed in the
Eccentric, operates on Eastern time,
and on Friday, March 2, compelled us
to give an ad report of the presidential
inauguration, which did not take place
till Monday, March 5. Beat the sun
three whole days, by gum.

Mystery of Chimney Swift.
The chimney swift furnishes one of
the unsolved problems of bird life.
flocks drift slowly south upon the
northern coast of the Gulf of Mexico
they become an innumerable host.
Then they disappear and for three or
four months their hiding place is a mys-
tery.

Introduced Graham Bread.
The inventor of Graham bread an-
nounces that Rev. Sylvester H. Hays,
a former Episcopal minister, who died in
Northampton, Mass., sixty-five years
ago, having bequeathed the major part of
his life to the cause of a vegetarian
dietary theory.—New York World.

Bad Habit All Too Prevalent.
The unconscious fault of interrupt-
ing is so prevalent that Robert Louis
Stevenson once paid the tribute to his
deceased friend, James
Ferrier: "He was the only man I
ever knew who did not habitually inter-
rupt."

Very Brave.
Percy Williams—"You need not fear
tramps or rough men when you are
runner, and I help bring to you in a
minute."

Longfellow and Tennyson.
Longfellow and Tennyson were not
personal friends of long standing, but
they became friends late in life. Long-
fellow was born February 27, 1797, and
Tennyson August 6, 1809. They
never met until 1838, when Longfellow
visited England. Writing from there to
a friend in this country he said: "We
came last night from a treatise where
we had passed two happy days;
mostly with Tennyson—not at his house, but
mostly with him. He was very cordial
and very amiable and gave up his whole
time to us."

Defining the Heart.
The human heart, always a mystery,
has become the subject of far-reaching
speculation, since a Supreme court judge
decided that "nobody can plumb it
because it has been described a
ground and hollow." The judge says
in effect, that it is bottomless. One
time I driven to the conclusion, that
was to be met before the first heart-
beats to beat, it is "without form and
void."

Do You Wish Music,
or Furniture?
If you desire simply a piece of
machinery or a piece of furniture,
buy a talking machine—it is
cheaper.
But if you want real Music,
you will have to buy the New
Edison.
We send them out on trial.
We do not send a salesman to
your home.
The New Edison sells itself.
To make sure it is new, we
will send you one in its original
crate, as it comes from the Edi-
son Laboratories, if you so de-
sire.
Prices, \$100, \$150,
\$200, \$250.
Most easy terms of payment.

And Be More Pleased.
This would be a better world if the
turkeys would devote less attention to
feathers and gobble and more to
white and dark meat.—Chicago News
