

GREEK WILL FILL

Prof. Andreade, Athens, Says
Countrymen Cover Region
Down to Dardanelles.

WOULD BE BAR TO GERMANS

Hellenic Preponderance in Constantinople and Adriatic Basin for
Claims—Principle of Nationality
Hitherto Ignored.

Athens.—If the Turk is to leave Europe, as the entente allies have required in their terms, then there is a well defined belief in the Balkans that two results will occur of high importance to Greece and the Balkans.

1. That the Greek inevitably will succeed the Turk throughout Thrace and in the whole region down to the Dardanelles and the Bosphorus.

2. That a new zone of territory friendly to the entente will thus be stretched horizontally straight across the Balkans as a barrier to the German dream of making the Balkans a German high road to the Orient.

Professor Andreade of the University of Athens, one of the foremost authorities on international affairs relating to the Balkans, holds this view, and in the course of a talk he explained how these results would naturally come about in the final peace adjustment, by reason of the principle of nationality now being applied to the entente allies as a basis for territorial readjustment.

Points to Greek Preponderance.
Professor Andreade, who is a specialist on the extent of Greek citizenship beyond the Greek frontiers—in Macedonia and the other Balkans, in Turkey, Syria and Asia Minor—pointed out the great preponderance of the Greeks in the region to be evacuated by the Turks if they are to leave Europe.

The whole vilayet, or province of Adrianople, extending from the Balkans down to Constantinople, he declared, is as much Greek as it is Turk and with the Turks out it is practically all Greek. "Even Constantinople," he said, "is a Greek city—the largest Greek city with a population of 350,000 Greeks. That gives an idea of the extent of Greek citizenship in all this section down to the straits, which will have to be considered, on the basis of nationality and race, when the Turk leaves Europe."

"That is why I say," added Professor Andreade, "that if the Turk is to withdraw, the principle of nationality, which recognizes the racial condition of a community, will tend to the recognition of Greek paramount influence in that section. Thus far, the principle of nationality has been ignored and force has prevailed. Austria and Bulgaria have not occupied any of the territory annexed in recent years by reason that their race or nationality prevailed in these sections, but solely by reason of their military force. That has been the cause of the endless wars in the Balkans, for people are never satisfied when their race is ignored and they are attached to a foreign conqueror by force."

Two Barriers to Germany.
Professor Andreade, referring to the Balkan map, showed how the readjustment of Balkan boundaries, based on nationalities, would interpose two barriers to German expansion toward Asia Minor and the Orient. One, the Greek zone across Thrace, and the other, the Serb-Romanian link of territory which lies as a dam between Hungary and Bulgaria. This link, he said, is a link of fifty miles.

MOST DECORATED WOMAN

"BROKE" SOLDIER SAVES LIFE
Lack of Car Fare Brings Him to
Rescue of Man Hurt by Train.

Minneapolis.—If Frank Brickley, private with the First Minnesota horse corps, had had five cents Emil Dreifahl, 131 Bunker street, St. Paul, would probably be dead.

Dreifahl was struck by a Chicago Great Western train at the Wyoming street and the railway tracks. His left arm was mangled four inches from the shoulder.

Shortly after the accident, Private Brickley, who was walking to barracks from South St. Paul, because he did not have car fare, met Dreifahl, bloody and staggering, at Lucy and Concord streets.

He applied a tourniquet to the arm above the injury and stopped the flow of blood, probably saving the man's life.

POISONED FISH FOR RATS

Authorities at Somerville, Mass., in
War With Invading Army of
Rodents.

Somerville, Mass.—Poisoned fish for rats.

The city dump here is headquarters for a rat army which has invaded the city. The authorities are carrying on a franchise warfare against the invaders, and the campaign has been acting reprisals on family landers.

Householders are fearing that the cold weather will drive the rodents away from the dump to some more private and exclusive domain.

Poisoned fish will be scattered about the dump and the rats will be attracted to it, killing them.

She didn't know it was hopeless until I'd seen your method of making love.

JOFFRE GETS BIGGEST MAIL

French Marshal Overwhelmed With
Correspondence From United
States and France.

Paris.—The heaviest mail bag of any person of France is probably that of Marshal Joffre.

The marshal is between two fires. He still receives an enormous number of letters from women and children in America, who suffer in vain against his powerlessness. On the other hand, French

"SHOES" OF MARK

across, but with Roumania getting the Banat region, to which Professor Andreade says she is entitled by the principle of nationality, this entente link will be 150 miles across.

"And thus entente Europe can accomplish what it chafes to see the Balkans," said Professor Andreade, "friendly entente zones intercepting the natural route of German expansion toward the Orient, and this can be accomplished, not by force, but by the principle of nationality now accepted by the entente powers."

UNCLE SAM BUILDING BIG NAVAL SANITARIUM

Los Animas, Colo.—Uncle Sam's largest recuperation camp for the sick and wounded sailors of the United States navy will be at Fort Lyons, near here, when new additions now under construction are completed.

At present the sanitarium accommodates 250 patients, but work is being rapidly pushed on the construction of buildings to make it possible to care for between 5,000 and 6,000 marines and sailors who are incapacitated by chronic tuberculosis and other diseases. The cost of the work will be about \$2,000,000.

Dr. F. H. Ames, who is in charge of the Fort Lyons sanitarium, says that the 4,000-foot altitude of the site makes it an ideal location for the care of those afflicted with the great white plague, and declares the government plans to make the camp the finest of its kind in the world.

MAKE GOOD IN THE ARMY

Men Prominent in College Athletics
Rise Rapidly in the Service.

Boulder, Colo.—University of Colorado athletes will soon find good use for the training they received in school sports here. Word has been received that the army "summer school in France" of two former football stars of the state university, and of two others who were prominent in athletics here, is being held at Fort Riley officers' reserve camp early in the summer and is now a captain in the regular army.

Eddie Evans, who was elected captain of this year's football squad, but who retired from school to seek fame in Uncle Sam's fighting forces, has been made a second lieutenant and letters received here disclose the fact that he is "over there" somewhere.

Homer P. Wells and Chauncey Bennett, both prominent in athletics at Boulder, have been accepted in the aviation corps and are believed to be "across the pond."

POISON GAS NOT CHLORINE

Substance Alone Could Never Cause
Agony and Internal Injuries Re-
ported From France.

Pittsburgh, Pa.—Chlorine is not the substance from which poison gases are made on the European battlefronts, according to a paper read before the American Electrochemical society convention by William D. Marshall, a delegate.

HEADS POLICEMEN

Dr. Valeria H. Parker of Hartford,
Conn., is the first woman policeman
ever to be given supervision over
other state policemen in the United
States.

Dr. Valeria H. Parker of Hartford, Conn., is the first woman policeman ever to be given supervision over other state policemen in the United States. She is devoting her time to interesting thoughtful and careless girls near the military camps at New London, Conn., in recreation rooms and clinics. She has supervision over five other policemen.

FEIGNS BLINDNESS, IS FREE

French Prisoner in Military Prison
Deceives Germans by Remarkable
Will Power.

Paris.—A professor of the Sorbonne, the great French university, recently was released from a German military prison by a remarkable exercise of will power. He fell into the hands of the Germans in 1915. Decided at once to feign blindness, and he feigned blindness.

From that time it was impossible for the German military doctors or eye specialists to catch him off his guard. They subjected him to the severest known tests. He was tortured by scientific ways of verifying sightlessness, but never once departed from a fixed blank gaze.

He was finally declared totally blind, and included in a recent exchange of permanently disabled prisoners.

PLAN HOTEL CLEARING HOUSE

New York Has Scheme to Save Vi-
sitors Inconvenience in Locating
Accommodations.

New York.—A hotel clearing-house, with the object of locating without delay suitable rooms for visitors when the hotels are filled, will be inaugurated, under the auspices of the Hotel association of New York city.

The suggested condition of hotels here at certain times during the year as during the present world's baseball series, where visitors who failed to make reservations were unable to find accommodations without considerable trouble, led to the decision to organize the clearing-house. Under the new arrangement, the hotel keepers believe that the troubles of the business sojourner in New York are at an end.

SOLDIERS PRINT OWN NEWS

Perkins' Men Have Their Own Press
Humming Away on the
French Front.

Paris.—The rumble of the press is added to the various noises surrounding the American army headquarters in France. Soldiers' printing matter is printed on the premises. Soldiers, who in civil life are used to the printing press, are printing pamphlets and other army literature for the fighters. A fully equipped printing office with a staff of printers is doing the work. The first type "set up" told Perkins' men to train how to throw bombs and how to handle them without accident. Army orders and the "latest" front home will follow.

PAWNS RIVAL'S GIFT TO GIRL

She Has Him Arrested in East St.
Louis and Deeds With
Other Man.

East St. Louis.—A love "triangle," with a diamond ring, making it a quadrangle, was folded in the police station when Miss Anabelle Mace, eighteen years old, of St. Louis, caused the arrest of her former sweetheart, Walter R. Howell, 608 Collinsville avenue, on a charge of pawning a ring given her by her other sweetheart, Charles Lucas. There she waited triumphantly away with Lucas, waiting farewell to Howell as he was led to a cell.

POUNDS ROBIN FROM HIS HAND.

Milton, Ind.—Lester Crenshaw, the
near Roushville, placed a box near the
saw trough of his house and a robin
in civil life used to the printing
press, are printing pamphlets and
other army literature for the fighters.

PRE-ARRANGED WITH WIDE PORCH

Little House Described Here is
Attractive and Thoroughly
Convenient.

Material Well Harmonized
With Design of the House.

Stained Shingles and Stucco Walls
Add Distinctive Touch to the Ex-
terior—Plenty of Light Gets
Into Every Room.

Mr. William A. Radford will answer
questions and give advice FREE OF
COST on all subjects pertaining to the
subject of building for the readers of this
paper. On account of his wide experience
in the subject, he is a most valuable
adviser. He is without doubt, the highest authority
on all these subjects. Address all inquiries
to William A. Radford, No. 1001 Franklin
avenue, Chicago, Ill., and only enclose
two-cent stamp for reply.

For better appearance, pleasing bal-
ance and harmonious color scheme, the
little house shown in the accompanying
perspective view is attractive to a
marked degree. One of the principal
features of the design is a porch which
is thoroughly adaptable to the design.
The house expresses comfort and hospi-
tality in its appearance, due very
largely to the effect of the porch. A
low arched eave is used across the
front of the house and the ends of the
porch have a similar treatment; the
vertical measurement of the curve is the
same for these two arched eaves, how-
ever, which gives that at the end
considerably more of a curve than that
across the front of the house. The
graceful effect obtained by the use of
these false arches is well shown in the
perspective view.

The typical bungalow lines are not
sacrificed in any way by making this
house of the story-and-a-half type. The
low flat roof looks down on the porch
expanses and gives a decorative touch
to the design while, at the same time,
abundant light is furnished to one of
the rooms on the second floor. Half-
columns are exposed across the width of
the main floor and the dormer roof.
Sixteen-light windows are provided in
the dormer and large picture windows
of the double hung type, having
twenty-one light upper sash, are used

small cost, fit in a very attractive book-
case and are well suited to the de-
sign of the house. There are three
bedrooms, each with a window looking
out on the porch. The man who
appreciates his home and spends some
of his money in making it comfortable
for the future is sure to obtain full
return for the money which he invests
in the fitting out of such a room.

There are three full height bedrooms
on the second floor, each opening on
the hall which runs back to the stairs.
Generous closet space is provided for
each bedroom. The bath is placed at
the rear, near the head of the stairs.
All of the rooms are well lighted and

size of the house. There are two doors
in the rear wall of the dining room.
One of these leads to the kitchen,
which is a room 8 feet 6 inches by 11
feet with adjoining pantry. The pan-
try is equipped with a cupboard and
a small door is placed in the wall be-
tween this room and the rear entry,
through which an end-closet, refriger-
ator can be filled. The sink in the
kitchen is placed beneath two small
windows. There is a chimney on the
outside rear corner of the kitchen for
the range, if one is used, or for con-
nection with the ventilating hood of a
gas range. The second door in the
rear wall of the dining room leads to
a short hall off the kitchen at the end
of which there is a door at the foot of
the stairs to the second floor.

There is a bedroom on the first floor
which is entered from the living room.
This room might be fitted out as a
bath if such an arrangement would be
pleasant. The contractor could, at
