

# BIG CORN CROP IS NOW MING

More Than 3,000 Million Bushels Raised in 1917—Gives Big Surplus.

## SAVES WORLD FOOD SITUATION

America Beginning Greatest Corn Consumption in History, Using Cereal in Many Delicious Dishes.

Corn, America's greatest cereal crop, is now moving rapidly to market.

More than 3,000 million bushels—30 bushels for every man, woman and child in America—were raised in 1917. It was a mighty crop. The actual increase is about 600 million bushels. And this extra store of grain is coming on to the market in great quantities, since the American wheat surplus has been sent to help feed famine-stricken Europe.

Just as it happened in the Colonial days, the War of the Revolution, and the Civil War, corn has actually become the nation's mainstay.

In the entire list of America's food commodities there is no item that is richer than corn. In particular, the corn pone, and as hominy combined with meat or eggs, corn is without a peer. Homeowners are fast learning the large number of delicious dishes that may be made with corn and their families are benefiting by an increasing use of the cereal. Corn, more than any other cereal, contains all of the elements essential to maintaining life and health.

In order that the fighting men abroad and in the army camps at home may be fed, and in order that actual famine may be kept from the nations associated with America in the war, the citizens of America are finding corn products delicious and palatable on "wheatless days."

The fact that "wheatless days" here mean more wheat for the war worn allied nations in Europe.

England, France and Italy must be fed from America's great storehouse. They will get some corn—especially Italy—but most of their grain shipments must be wheat. Their ability to use corn is small compared to the facilities they have for using wheat. And it is the opinion of officials in Washington that the present is no time to try and change the eating habits of Europe.

America's greatest use of corn will be in the form of corn bread and corn meal, mixed with wheat in the making of leavened bread.

Mixed with 80 per cent wheat flour, corn meal can be used in bread making, producing a loaf more nutritious than bread baked with wheat alone. It is a fact corn millers will verify that dozens of the large American bakeries have been successfully using a corn flour in bread making for several years.

Hominy grills, served at breakfast with a poached egg, or eaten at any other meal with meats or gravies, is another use of corn that will become increasingly popular during the war.

Corn syrup to sweeten corn cakes, and corn oil for use in all kinds of cooking, are two other products already well welcomed in thousands of American homes.

## THE UNITED STATES FOOD ADMINISTRATION SAYS:

Food saving is in its essence the daily individual service of all the people. Every grain of wheat, stalk of corn, and even the great majority of thrifty people can save a little—and the more luxurious elements of the population can, by a transition to simple living, save much. This means no more than that we should eat plenty, but wisely and without waste.

## Food Will Win the War

A LARGE part of the world is coming to the position that Belgium is taking—coming to the stage where the primary and immediate thing in life is enough food to keep alive.

Food has now taken a dominant position in the war. The American people must prepare themselves to sacrifice far more than was at first thought necessary.

The cold facts are: France, Italy and England have just enough food to keep them going for twelve months. America's food shipments stop—the allied nations begin consuming into this slender store and begin a swift march into actual famine conditions—which would mean defeat in short order.

Europe then must live on America's surplus. Your giving increases our available stocks just that much and actually feeds some people in the countries with which we are associated in our war against the Central Powers.

Our surplus which has already been shipped to the Allies.

## U. S. FOOD ADMINISTRATION

Improving One's Good Points. The art of posing lies in one's ability to acquire it without appearing affected. To make those with whom one comes in contact weary with unnecessary affection is of course a bad thing to desire. It is, however, rather the importance of slipping father's endowments, she will appear perfectly natural in always striving to lose her very best. You know your own good points and like the trouble to cultivate them. You will find that it will pay—exactly.

# Bowser Is At Peace

Maybe He Won't Kick Again

(Copyright, 1917, by the United Fruit and Sugar Company)

Mr. Bowser got out of bed on a Monday morning, after his third call to breakfast, and proceeded to get dressed. When he reached as far as his socks they were not in sight. He did not rush to the hall and call for Mrs. Bowser to come up on the gallop and explain what had happened. He waited until he found one of them on his foot and the other crushed into his shoe. He had trouble in fitting his collar and necktie, and his watch had somehow worked under his dresser, but he didn't make a kick—not a single kick. He ate breakfast without a kick and, as he walked up the street on his way to the office, he smiled blandly at an old horse flapping down the street.

Mr. Bowser didn't kick when he saw the old horse. He was as peaceful as a pumpkin growing under the July sun.

Tuesday morning he had the same difficulty in finding his clothes to dress. One shoe had gotten into the closet, where he had thrown it during the night at the growing moon and the stars, and he was obliged to remember it. The button had come out of his shirt collar and it took ten minutes more to find it in a heap in bed. Not one kick. Not one swear word. Mrs. Bowser hinted that they would soon need more food for the kitchen range, but that did not disturb Mr. Bowser's placidity in the least.

And, walking up to the corner, he shook hands with three or four men whom he hardly knew and told an old woman that the war would soon be over and everybody would be rich. If a lonely old mule had come along and brayed in Mr. Bowser's ear he would not have raised a hair on his head.

Tuesday evening at dinner Mrs. Bowser finally mentioned that she wanted to do some house cleaning next day, and that she would get up in the morning an hour earlier to do it. She held her breath waiting for Mr. Bowser to say that he would stay home from the office and put his hands to it.

And it is the opinion of officials in Washington that the present is no time to try and change the eating habits of Europe. America's greatest use of corn will be in the form of corn bread and corn meal, mixed with wheat in the making of leavened bread. Mixed with 80 per cent wheat flour, corn meal can be used in bread making, producing a loaf more nutritious than bread baked with wheat alone.

Hominy grills, served at breakfast with a poached egg, or eaten at any other meal with meats or gravies, is another use of corn that will become increasingly popular during the war.

# EUROPE NEEDS FOOD

Food Administration Declares It an 'Absolute Sin to Waste Food'—Food Has Become Sacred.

Europe is still sending an insistent call for more food. We must send it if the war is to go on efficiently. If we eat it all we cannot ship it, and the food administration has already tried to picture how much that wheat is needed by people who will starve if they do not get it, the food administration states:

"For the least bit of heedlessness on your part in food conservation some of the necessities in the world must be given up, or, in other words, an official statement declares: 'The food administration has mastered the problem of America's food in such a way that every ounce of food conserved and kept in the currents of trade goes to an empty stomach in Europe.'

"It is an absolute sin to waste food. Food has become sacred. 'Food means life; it means more than life, and you cannot escape responsibility. 'There is no waste of food among the allied nations.'

## WAR BREAD COSTLY TO BRITISH GOVERNMENT

Every year the British government pays \$200,000,000 toward the cost of that nation's war bread. That is the principal reason why English flour prices are lower today to the consumer than in America. Incidentally the British bread is much poorer than the American.

Great Britain has taken over all home grown grain, bought at an arbitrary price, and all imported. Wheat flour in markets of the world at prevailing prices. This is turned over to the mills by the government at a price that allows the miller to make a profit of four pounds to sell at 18 pence. The two pound loaf sells 9 cents, and the one pound loaf sells for 5 cents.

In Michigan, however, 14 per cent more flour is extracted from the wheat than in America. And there is a compulsory adulteration of 20 per cent, and an allowable adulteration of 50 per cent.

Compared with American bread, the British product is only about 40 per cent pure at its best.

In France, under conditions somewhat similar, but with a larger extraction, the four pound loaf sells for 10 cents.

## AMERICAN SAVINGS WILL MEASURE WHEAT EXPORTS

"We have already exported the whole of the surplus of the 1917 wheat harvest, over and above the normal demands of our own population. It is necessary, therefore, for the food administration to restrict export of wheat so as to retain in the United States sufficient supplies to carry over into people until the next harvest.

"Therefore all exports of wheat from now forward are limited strictly to volume of savings made by the American people in their consumption of wheat and wheat products.

"The wheat and wheat shipments for December as well as our situation allowed, but even with all the conservation made we would be unable to load several hundred thousand tons of wheat stuffs urgently required by the allied nations during the month of December alone."

HERBERT HOOVER.

## WHEAT-CORN YEAST BREAD.

Put one and a half cups of water, two cups of yeast, one cup of sugar and six (if used) into a double boiler and cook twenty minutes. The water is sufficient only to get the yeast and little. Allow the meal to cool to about the temperature of the room and add the yeast and yeast mixed with the rest of the water. Knead thoroughly, make into loaf, place in pan of standard also, allow to rise until nearly double in bulk, then bake in standard. It is hardly preferable to use a greater percentage of cornmeal than this even in emergencies. For bread so served, the yeast will rise to a mush. Less cornmeal can be used and in case a general method of bread given above followed.

It is essential to make a yeast raised corn bread without first cooking the cornmeal. In this case no more than one cupful of yeast is used in four cupful of flour. In other respects the bread is mixed and baked as in the above recipe.

Population of Denmark. The 1916 Danish census shows the little kingdom to have 1,000 inhabitants, an increase of 163,000 souls in the 56 years since the previous census. The distribution ratio is seventy-five to one for the population to the square mile. The Copenhagen-Frederiksberg county contains 985,000 inhabitants—i. e., more than one-fifth of the total population of the country for every city of 100,000 people. Rustic population, 1,711,000. The three principal cities, Copenhagen, Ålborg, and Ålborg, 95,000, 45,000, and Ålborg, 55,000.

Wheat-corn bread is more nutritious than bread baked with wheat flour alone. Thousands of American families today are using this mixed bread, and in so doing are enabling America to provide more wheat flour for the allies. Here's a tested recipe for this bread. Take one cup of cups of milk, water or a mixture of the two; one-half cake compressed yeast, one and a half teaspoons salt, one tablespoon sugar, one cup of fat (if desired), one cup cornmeal and two cups wheat flour.

Put one and a half cups of water, two cups of yeast, one cup of sugar and six (if used) into a double boiler and cook twenty minutes. The water is sufficient only to get the yeast and little. Allow the meal to cool to about the temperature of the room and add the yeast and yeast mixed with the rest of the water. # Keeps You Stove Shining Bright

Given a brilliant shining stove that does not rust or turn black—that means that you have a Black Silk Stove Polish.

It is a class by itself. It's made especially for stoves and makes them shine like a mirror.

It's not only for stoves, but for all the other things that you want to shine. It's the only one that does not leave a greasy film. It's the only one that does not leave a white residue. It's the only one that does not leave a black stain. It's the only one that does not leave a red stain. It's the only one that does not leave a blue stain. It's the only one that does not leave a green stain. It's the only one that does not leave a yellow stain. It's the only one that does not leave a purple stain. It's the only one that does not leave a pink stain. It's the only one that does not leave a brown stain. It's the only one that does not leave a grey stain. It's the only one that does not leave a black stain. It's the only one that does not leave a red stain. It's the only one that does not leave a blue stain. It's the only one that does not leave a green stain. It's the only one that does not leave a yellow stain. It's the only one that does not leave a purple stain. It's the only one that does not leave a pink stain. It's the only one that does not leave a brown stain. It's the only one that does not leave a grey stain. It's the only one that does not leave a black stain. It's the only one that does not leave a red stain. It's the only one that does not leave a blue stain. It's the only one that does not leave a green stain. It's the only one that does not leave a yellow stain. It's the only one that does not leave a purple stain. It's the only one that does not leave a pink stain. It's the only one that does not leave a brown stain. It's the only one that does not leave a grey stain. It's the only one that does not leave a black stain. It's the only one that does not leave a red stain. It's the only one that does not leave a blue stain. It's the only one that does not leave a green stain. It's the only one that does not leave a yellow stain. It's the only one that does not leave a purple stain. It's the only one that does not leave a pink stain. It's the only one that does not leave a brown stain. It's the only one that does not leave a grey stain. It's the only one that does not leave a black stain. It's the only one that does not leave a red stain. It's the only one that does not leave a blue stain.
