After a time now words were scarcely more than a fourmer:
"God beard my prayers and sent you to me."
"Rosa! You are ill, you are weak—"Hear eyelids fluttered. "I am dying, Ulaily and the see you."
"So, see "In agony the gathered her week more into this arms.

Allay Panic.

In the report of the torpiedoing of the Anchor liner Camerjonia with troops in the Mediterranseln last summer, mention was made of the splendid conduct of the expital's boy, Mackinson. This soungstew was on the bridge with the captaig when the ship was struck, and he did much to allay the executional by Johnston through the execution of the state of the

U.S. WIRE CONTROL **EFFECTIVE AUG. 1**

DURING PERIOD OF WAR BURLE. SON WILL HAVE COMPLETE CONTROL OF SYSTEMS.

cold water cannot be run through thetank several times daily, or where ice
is used, it is advisable to use an inwulated tank.

5. Churn—The barrel type of churn
is simple, inexpensive, easy to opertion and sality cleaned.

yi. Cream-Stirring Rod—A rod with
A faur of twe-inch disk on one end is
more effective in stirring cream than a
spoon or other implement. Stirring
rods should be well thaned and smooth
to thit they may be cleaned easily.

10. [Wooden paddle.
12. Tin paths.
13. Harf gallon tu dipper.
15. Serub Brush—A stiff ther brush
ts preferable to one with soft bristless.

TAKING CARE OF SEPARATOR Machine Should Be Cleaned Thoroughly
Immediately After Each Time
It is Used.

Prepared by the United States Depart-

ment of Agriculture.)

Like all other milk utensils, the sep-rator should be cleaned thoroughly amediately after each time it is used. (erely flushing the bowl with warm
