

## We Set Tire Standards

Why is it that United States Tires are setting new records for mileage and serviceability?

Why is it that the sales of these tires are constantly mounting by leaps and bounds?

The answer is found in the factories where United States Tires are made.

Standards of construction for these tires are higher than ever before known in the tire industry.

Makers of tire fabrics tell us that the standards we have given them for United States Tire fabrics are higher than any previously known.

Likewise through every process of construction from crude rubber to finished tires—we have set new and higher standards everywhere.

These standards work out on your car in the practical economy demanded by war-times.

United States Tires will raise any car to higher efficiency.

There is a type to suit every condition of service.

The nearest United States Sales and Service Depot dealer will cheerfully aid in selecting right tires for your requirements.

## United States Tires are Good Tires

We know United States Tires are good tires. That's why we sell them.

## TRUMAN H. NEWBERRY

### A Worker

**TRUMAN H. NEWBERRY** is a worker,—always has been and always will be,—because he loves work.

As a lad he went out and joined a railroad construction gang and worked up to a passenger and freight agent on the road.

Later he studied the Lakes and worked his way to a pilot's license, which he holds to-day as one of his proudest possessions.

Afterward, he went into business life, where, by the way, he made a name for himself.

As Assistant Secretary of the Navy under President Roosevelt, he gave the closest attention to his duties and his good work advanced him to the position of Secretary of the Navy and a member of Roosevelt's Cabinet.

To-day his work is a Com-

mander in the Third Naval District is winning widespread approval.

As a worker, he knows about other workers, understands them and their problems. He was one of the first business leaders to declare publicly in favor of the rights of the laboring man, and his reputation for fairness and straightforward dealing attracted wide and favorable attention in industrial circles.

While Secretary of the Navy he made it possible for the men in the Brooklyn Navy Yard to have an organization for mutual benefit and sought their suggestions on the work they had in charge, gave them an opportunity to examine and approve the wage scale and put the working force into such a frame of mind as to secure their fullest co-operation. The men were with him and he

### Evaporation of Water.

A scientist in Europe has figured that a particle of water evaporated from the ocean is condensed and returns again in ten days, but that it remains there 3,400 years before being evaporated again.

### Varied Breeds of Swans.

There are three kinds of swans—the white, which in various parts circles the northern hemisphere; the black, which is found in China when it was discovered in Australia, and the more recent and most remarkable of all, the white swan with a black neck, which is found in Chile and which breeds in the Antarctic.

### Finnan Haddie.

"You may be getting finnan haddie when you order it at your dealer's," said a buyer for a restaurant, "and you may not. Finnan haddie is smoked haddock. Haddock is of the same family as the cod. It resembles the codfish, but has a black lateral line. The lateral line of the codfish is white. The appearance of this line is not changed by the smoking, and if you take the trouble to glance down the sides of the fish that you are buying as finnan haddie you will often see that the line is white, not black. Cod may be just as good, as the dealer will perhaps tell you, but if you want finnan haddie that is doubtless what you want."—New York Sun.

**THIS IS AN IMPORTANT ITEM OF GOVERNMENT NEWS** that will have a direct bearing upon the securing of Michigan's \$70,000,000 quota in War Savings Stamps. It contains the War Savings campaign plan, together with a brief but clear explanation of the Government's war saving proposition. These are things with which every citizen should be familiar; and the National War Savings Committee is depending upon the newspapers of the country to give these matters fullest publicity. The Michigan War Savings Committee urges all editors to publish this:

## IMPORTANT NOTICE

HON. WILLIAM G. McADOO, SECRETARY OF THE TREASURY OF THE UNITED STATES OF AMERICA, PROCLAIMS

FRIDAY, JUNE 28, 1918

## AS NATIONAL WAR SAVINGS DAY

GOVERNORS AND MAYORS MAKE SIMILAR PROCLAMATIONS

MEETINGS WILL BE HELD IN EVERY COMMUNITY TO SECURE SUBSCRIPTIONS FOR WAR SAVINGS STAMPS

Pursuant to the call of the Treasury Department of the United States and the proclamation of the Governor of this State, I, War Savings Director for Michigan, acting under the authority of the United States Treasury Department, have called all tax-payers and wage-earners to meet on Friday, June 28th, to give their subscriptions for War Savings Stamps. In rural communities and the smaller towns and cities, meetings will be held in the school houses at 2 p. m.

The school officers who conduct the meeting in each school house, keeping a record of the proceedings and reporting the names of all persons present and the amount of War Savings Stamps subscribed for by them. The names of absent persons, and of those who refuse or neglect to subscribe, with their reasons for so doing, will also be reported.

War Savings Stamps (which are United States Government Bonds the same as Liberty Bonds) can be paid for during any month in the year 1918, but it is intended that subscriptions will be signed for them on June 28. The price of each War Savings Stamp depends upon the month during which it is bought. During June each Stamp will cost \$4.17. In July each Stamp will cost \$4.18, and so on, one cent more each month during 1918. On January 1, 1923, the Government of the United States will redeem all War Savings Stamps at \$5.00 each, no matter during which month in 1918 they were bought. They cost less during the early months in 1918 than during the later months because the person who buys earlier has loaned his money to the Government for a longer time than if he should buy later.

By way of illustration, note the following table:

### COST OF WAR SAVINGS STAMPS DURING JUNE, JULY, AND AUGUST, 1918

	Cost in June	Cost in July	Cost in August	And are Worth on Jan. 1, 1923
1 Stamp	\$4.17	\$4.18	\$4.19	\$5.00
25 Stamps	\$3.40	\$3.50	\$3.80	100.00
50 Stamps	208.50	209.00	209.50	250.00
100 Stamps	417.00	418.00	419.00	500.00
200 Stamps	\$834.00	\$836.00	\$838.00	1,000.00

The law provides that no person can hold in his own name War Savings Stamps exceeding \$1,000 maturity value. War Savings Stamps, however, may be purchased for other members of the family, including minor children.

The money invested in War Savings Stamps is not a gift or a donation, but is a loan to the Government. It will be paid back with 4% compound interest. If, because of some serious financial reverse, or calamity, it should be necessary to get your money before January 1, 1923, you may do so by giving ten days' notice to any Money Order postmaster, in which case you can get what you paid for the Stamps, with interest to date of payment. The Stamps are free from all State and local taxes; when registered at the postoffice they are insured against loss; they are backed by all the property in the United States; they cannot fall in value below the price you pay; they are as convenient and as well paying an investment as has ever been offered by our Government.

A definite quota of War Savings Stamps has been assigned each school district and community, which will be announced at each meeting on June 28th. The Government of the United States expects all the citizens of help win the war.

It is to be hoped that the subscriptions taken at the meetings in your county will show you and your neighbors to be loyal Americans to whom our Government, in this hour of need, does not call in vain.

SIGNED

*Frank McArthur*

Michigan War Savings Director appointed and acting under the authority of the Secretary of the United States Treasury.

## WIDOW BUYS WAR SAVINGS STAMPS

Has Five Brothers in the War and Her Husband Died in Action.

Here is the story of a brave little woman, fired with American patriotism, who mounted F. C. O'Mara's War Savings trailer, began to click furiously in less than forty minutes \$50.00 worth of stamps were sold.

At the close of Mrs. Wright's fervent appeal, the seven stamp vending machines on Mr. O'Mara's War Savings trailer, began to click furiously in less than forty minutes \$50.00 worth of stamps were sold.

Antiquity of the Safety Pin. That the Brits were in constant communication with the other nations is shown by the fact that Egyptian scarabs and amulets, Persian pottery, Greek terra cotta figures are found in the tombs of different periods. Bronze daggers and jewelry are fairly common, and Woolly pointing showed me a safety pin, 3,000 years old, that would still work. Some stone-age pottery, with the very ancient emblems of fertility, or of the weather god, was found in its original clay—Christian Herold.
