Swift & Company Publicity

At a recent hearing of the Federal Trade Commission there was introduced correspondence taken from the private files of Swift & Company, which showed that the Company had been considering for some time an educational advertising campaign.

The need for this publicity has been apparent to us for several years. The gross misrepresentation to which we have recently been subjected has convinced us that we should no longer delay in putting before the public the basic facts of our business, relying on the fair-mindedness of the American people.

Swift & Company's net profit is reasonable, and represents an insignificant factor in the cost of living.

Sales \$875,000,000 Profits \$34,650,000

This is equivalent to a \$3.465 profit on a business of \$87,500.

If Swift & Company had made no profit at all, the cattle raiser would have received only one-eighth of a cent per pound more for his cattle, or the consumer would have saved only one-quarter of a cent per pound on dressed beef.

Swift & Company, U. S. A.
