Our old friend Grumpy says, "the new steel liberty pole on the corner of Woodward and Maple should never have been placed in it's present position. Any sane person would know without tellin' that "it orter been at least six inches furder west." If they dug a hole where everybody suggested, our principal square would have resembled an enlarged pepper box.

We and everybody with us are certainly proud of our new Liberty flag pole, Old Glory and our two Honor flags, one earned by the village of Birmingham, and the other by the township of Bloomfield, our home township. On the corner of Maple street and Woodward avenue, no finer sight can be seen than this outfit, which is a gift to the people from the First National Bank.

Miss Clarkin, a graduate of the Detroit Institute of Musical Art, favored the Woman's Literary Club at the meeting of May 3 with a variety of choice readings, showing excellent training and mastery in the different expressions of elocution. Both young men are making good and are fine appearing lads in their khaki uniform.

Our citizen Mr. R. B. Hewitt was the very first and the eldest man to enlist from our town at the first call. He passed several months training at a camp in Illinois and went "over there" long ago. He is now with Col. H. Hewitt if you please and elsewhere in this Eccentric will be found a very interesting letter from him dated "Over Here" April 18th—about one month ago. We are pleased to print it and read with amusement, the new names in old friends inittats which he personally supplies. Frinstance, A. W. Campbell, Always Willing Campbell is very good.

Preparations are being made for a big celebration Decoration Day at Lake Orion. All of the proceeds from the entertainments which are planned will be donated to the Red Cross for use in war relief work. The navigation company has offered the free use of their passenger boats which will be operated to Assembly Island. There will be programs in the morning, afternoon and evening and speakers and entertainers of national reputation will be on the list. Plans are being made to make it the biggest day ever known at Lake Orion. This will also be the first day of the season at this popular resort.

That proverb which states "It is an ill wind which blows nobody good" may be aptly applied to the recent decision of the Director General of the United States Railroad Administration, reinstating the return free privilege on exhibits at State, County and District Fairs in Michigan. Prior to 1915 the railroads returned free, exhibits at Michigan Fairs when the ownership had not been changed. During that year this privilege was taken away and full rates, both to and from the exhibitions have been levied since. At the time of this arbitrary action on the part of the common carriers, G. W. Dickinson, Secretary-Manager of the Michigan State Fair, took up the cudgel to battle for the rights of the Michigan exhibitor and the managements of the Fairs, and in conjunction with the executives of other Fairs throughout the State, he made vigorous protests to the railroads. The fight has been carried on for the past three years. Conference after conference was held, but the railroad officials refused to grant any latitude in their decision, turning a deaf ear to the arguments presented. As a direct result of the War, administration of the railroads was assumed by the United States Government. It was then the tactics were changed in the battle for the free return privilege. Mr. Dickinson took up the question with the Federal authorities and March 25 he was granted a conference with the Director General in Washington. Three days previous to this conference it had been decided no change in the rules would be made this year.

Postmaster Mitchell took a flying trip last Saturday visiting over Sunday with his daughter, Miss Carrie E. Mitchell, who is approaching her third year as advertising manager for the great house of J. W. Knapp Co., of Lansing. Had a good time at the capital city. Saw Fred Blanding as manager, proprietor and owner of an immense Ford garage and supply station. It's just as easy for Fred to sell a Ford as for "yours truly" to dispose of a postal card, and he sells as many —almost. From Mr. Blanding to Chas. E. Toms, cashier of the American Savings Bank, is but a step, and there we were also cordially met and shown about a model banking institution. Charles carefully and successfully handles a business of over $2,000,000 in commercial accounts and over a $1,500,000 in savings department. They added to their already immense number of patrons, in this last Third Liberty Loan more than one thousand new patrons who pay monthly on their subscription to their bonds. A fine business. Returning home by trolley he called on friends at Holt, Mason, Leslie, Jackson, Ann Arbor, Chelsea, Ypsilanti ,and a few more in Detroit. The trip was a fine change to the stamp vender.

WASHING AND IRONING AT 115 Townsend Street. jun

Unrehearsed Inoident.

A laughable incident—for all but one person—occurred at a circus some time ago, relates London Tit-Bits. The comic policeman had just come off victorious from a bout with the clown, and both had retired from the ring for a moment. A real policeman, on duty at the circus, took a short cut across the arena to quell a disturbance, and the clown, entering with a pair of imps, took him for the sham man of law, and he and his imps fell upon the policeman, blinded him with flour, smothered him in soot, dragged him across the floor and hustled him out of the ring. When the real circus policeman, who had been a delighted spectator of the mistake, sprang into the ring the faces of the clown and the imps were a study. The audience, who had known the mistake all along, simply roared with laughter.

Queer Uses for Airplanes.

The aviator is constantly finding new lines of activity for his skill and courage. In South America the airplane has been used with great success in surveying remote areas, where its speed readily outclasses the laborious chainmen. An enterprising mining company in Mexico is about to utilize airplanes for carrying ores under unique conditions. The ore is mined at an altitude of some 10,000 feet, and carried to the valley below by pack-mules. The mules carry only small loads, two-thirds of which consist of fodder and provisions. Several days are required to wind down the tortuous path on the mountain side. The airplanes can volplane to the valley in a few minutes, and have no trouble with their loads in reaching the 10,000-foot altitude.

Rabies.

The popular opinion seems to be that a bite from a rabid dog in every instance causes hydrophobia in man. The figure, however, has been placed at 40 per cent of those not receiving the Pasteur treatment, according to a medical journal. A man or dog suffering with rabies never recovers, the mortality being 100 per cent. The period of incubation is very indefinite, varying from a few weeks to several years. The average period in dogs is about forty days. The treatment discovered by Pasteur which is very efficacious, requires about fifteen days to induce an active immunity to the disease. All wounds produced by bites of animals should be cauterized at once, especially if there is any suspicion of rabies.

The Nagging Wife.

In the course of our investigations we discovered that in some homes, although the wife was not dissolute, she was, nevertheless, almost wholly to blame for the wretched conditions which existed, asserts the University Magazine. In these cases the husband was hard working and earned sufficient money from week to week to win a comfortable home, if he possessed a comfortable helpmeet, but the wife, unfortunately, was afflicted with the densest ignorance of the art of home-making. In some other instances the home was made unhappy by a nagging wife, with a rasping tongue. One woman of this type appeared in the juvenile court charging her husband with neglecting her and her children. The husband offered no evidence at the end of his wife's tirade, which it was impossible for the court to check. "Can you blame me for taking a drink occasionally?"

Santa Marta.

Santa Marta, Colombia, is one of the great banana ports. After the days of the Spanish Main, when it was the scene of hot fighting between Spanish and English, and won a place in the romances of Kingsley as the setting for a naval battle, Santa Marta sank into a tropical siesta that lasted until the banana business was put on a world-wide basis by a great corporation. The banana shippers awoke her, and now there is a great air of activity and bustle in the old bay.
