

## ASSESSMENTS OF MUTUAL COMPANIES A LIEN ON THE PROPERTY INSURED

Act No. 256 of the Public Acts of 1917 provides that mutual companies in making assessments upon the policies of its members for the purpose of paying losses and expenses incurred, shall make the same a lieu upon the property insured. lien upon the property insured.

This is a wise provision and aces mutual companies on a ound financial basis.

In every Company all should pay their just proportion and this provision distributes the burden so the few responsible n will not have to take care more than their share.

Planting of Clean Bean Seed This Spring Will Rid Crop of Disease, Pathologist Says.

THOROUGH PICKING HELPFUL

Romoval of All Sta ched Beans From the Stock Lessens the Danger.

By DR. G. H. COONS, Plant Pathologist M. A. C. Experiment Station. East Lansing, Mich.—Michigan bean growers have experienced two disastrous seasons in which weather conditions have practically cut in two crops and the property of the programment of the pr acnose, had year after year the normous loss to the growers my sections, and in some districts failure. To this dismai condition be added the damage brought in the fail of 1917 by the rainy 4 which caught nearly the eap-ropp while it was still piled fail eld. As a result the beans that produced were in the bulk of produced were in the bulk of the failure less for spreading out the use.

eased stock.

The matter is not so simple as it sounds, for the problem is to get discease-free seed. Probably there is not a bushel of seed absolutely free from disease in Michigan. All the farmer with sease in the seed of the seed absolutely free from the sease in Michigan. All the farmer with sease in Michigan.

as ever. The present is an ideal o get i'rid of the old enemy, wholly an individual problem. If I were going to plant beans pring I would get seed stock free weathered, beans and as clean try as possible, and then I would to beked to absolute cleanliness. I requiring of the control of the cont
