

IN UNION THERE IS STRENGTH

THE great demand of the world today is "Friendship. Never before was there the need to stand shoulder to shoulder and work in harmony as today. The "Home Merchant" and the "Home Buyer" have made America the greatest country in the world. The person who spends his money outside his own town is tearing out the foundation of his own community. It is the Home Merchant who comes to your rescue in time of need—who weeps when you weep and laughs when you laugh. It is the Merchants of this town that contribute to our churches, schools and enterprises, not the one who conducts a city store.

DID you ever stop to think of the countless times you ask your Town Merchant to extend accommodations? Are you playing fair, when you have an opportunity to spend a dollar at home, to send it to a City Merchant who wouldn't give you a pleasant smile? Let's all stand shoulder to shoulder and make this the best town in the state. Any of these live, progressive Business Men are more than anxious to meet you half way. Remember, in "Union there is Strength." Will you join the Booster Club and be a Home Buyer and make this town better in every respect?
