

"PIT CAMPAIGN URGENT"—PRESCOTT

FOOD ADMINISTRATOR SAYS PROMPT RESPONSE WILL SAVE MANY PRECIOUS LIVES.

Some Localities Have Not As Yet Taken Up The Matter. Camp Custer Directed To Save Materials.

Lansing, Oct. 4.—Too much emphasis cannot be laid on the campaign to collect certain fruit stones, fruit pits and nut shells, said Food Administrator G. A. Prescott today.

Mr. Hoover has sent me a copy of the Red Cross instructions for carrying on the campaign and I have just finished reading this paragraph. "A nationwide campaign for the collection of these materials should be carried on immediately and with the utmost vigor. These materials are urgently needed to make carbon, which is to protect our men overseas from German poison gas. This is an emergency," added Mr. Prescott.

Save These and Save Lives. Peach pits, apricot pits, cherry pits, plum pits, nut shells, date seeds, Brazil nut shells, walnut shells (English or Native), Hickory nut shells, butternut shells.

Only pits of peaches, plums, apricots, olives, cherries and dates are wanted, as well as shells of Brazil and hickory nuts, walnuts and butternuts. These must be cleaned and dried before being turned in.

Investigation by chemists has shown the above specified pits and shells, make the best carbon for masks.

"Every army camp and cantonment in the United States will begin war immediately against the diabolical German gas, by saving pits and shells.

Washington, Oct. 5.—Owing to the extension of the drought area, the shortening of the corn crop, the large animal population in the country and the Allied demands upon it for feeding stuffs for their own animals, because of their own shortage in production of feed grain, it is necessary that we should exert every effort in the production of animal products.

DAIRY PRODUCTION OF OURS ENDANGERED

MR. HOOVER PLEADS FOR URGENT NATION-WIDE SAVING OF FEEDING STUFFS.

Milk Now Limited to Children and Vital National Use in Allied Countries. Shortage Good Feeds Upon United States.

Already, the milk supply in the Allied countries has been limited practically to the supply of children and other vitally necessary national uses, and any failure on our part to supply them with necessary feed stuffs for their dairy herd means that we shall cut into the actual safety of the children among the Allies.

One of the difficult problems is the distribution of wheat mill feeds, and this is made more difficult by the fact that the Food Administration, in an endeavor to protect the farmer, is maintaining artificially low prices on these feeds.

U. S. Chemists Make Discovery Recently. Investigation by chemists has shown the above specified pits and shells, make the best carbon for masks.

"All pits and shells saved should be turned into the nearest Red Cross organization. The Red Cross will arrange for their shipment to central points. Please remember only those named are of use; no others should be put into the receptacles, because time and labor must not be wasted in sorting them.

With a view to securing the cooperation from the farmers all over the country as a whole, we are instructing the mills and elevators to feed as secure from the buyer of wheat mill feeds the following pledge:

"In order to assist the Food Administration in the distribution of mill feeds, I hereby undertake on honor not to do anything which will be for other purpose than the feeding of dairy cattle, poultry, young pigs or young calves, or the preparation of a weekly bran mash for young animals.

Although a Victory Mixed Flour, containing 20 per cent substitutes mixed at the mill, will be available for consumers the coming year in as many places as it is economically possible, there will be some considerable amount of straight wheat flour sold throughout the country.

Do You Think There is No Competition?

If anyone thinks there is no competition amongst the big packers he ought to go through a day's work with Swift & Company.

Let him begin at the pens when the live stock comes in; let him try to buy a nice bunch of fat steers quietly and at his own price without somebody's bidding against him.

Let him realize the scrupulous care taken at the plant that not one thing is lost or wasted in order that costs may be held to a minimum.

Let him go up into the office where market reports are coming in, and reports of what other concerns are doing.

Let him watch the director of the Swift Refrigerator fleet, maneuvering it over the face of the country like a fleet of battleships at sea.

Let him take a trip with a Swift & Company salesman and try to sell a few orders of meat.

Let him stay at a branch house for an hour or two and see the retail meat dealers drive their bargains to the last penny as they shop around among the packers' branch houses, the wholesale dealers, and the local packing plants.

And then, when the day is over, let him have half an hour in the accounting department, where he can see for himself on what small profits the business is done. (Less than 4 cents on each dollar of sales.)

If he still thinks there is no competition in the meat business it will be because he wants to think so.

Swift & Company, U. S. A.

How Acid-Stomach wrecks Health of Millions

Many people make the mistake of thinking that acid-stomach—superacidity as the doctors call it—merely means an occasional attack of indigestion, flat, heartburn, belching, sour gas, or some other such trifling ailment which quickly remedied—or will cure itself—does not leave any serious effects. As a matter of fact superacidity is responsible for a long train of serious ailments that cause awful suffering and sometimes bring the best medical skill. It is a well established fact that many cases of chronic stomach trouble, anemia, stomatitis, gastritis, rheumatism, gout, beriberi, obesity of the liver, auto-intoxication, dyspepsia, catarrh of the stomach, intestinal flatulence, constipation, and frequently varicose veins (itching and sore) are due to acid-stomach.

This is not all. It is a well established fact that many cases of chronic stomach trouble, anemia, stomatitis, gastritis, rheumatism, gout, beriberi, obesity of the liver, auto-intoxication, dyspepsia, catarrh of the stomach, intestinal flatulence, constipation, and frequently varicose veins (itching and sore) are due to acid-stomach.

Don't Cut Out A Shoe Bill, Capped Hoek or Bursitis. ABSORBINE. For swollen, inflamed, itchy, sore, or burning spots, blisters, chafes, cuts, burns, sprains, etc. It is a sure cure for all these ailments.

Wholesale, Cleaning, Retreating and Re-dyeing. Lotion—Murrine for Redness, Swelling, Granulation, Itching and Burning of the Eyes or Eyelids; soon After the Murrine, Murrine or Gel will win your confidence. Ask Your Druggist for Murrine Eye Remedy Co., Chicago.

IT IS NOT ENOUGH TO HAVE THE BOWELS MOVE; IT IS MORE IMPORTANT TO PERSUADE LIVER, KIDNEYS, SKIN, AND BOWELS TO ACT IN HARMONY AND AGAINST SELF-POISONING.
