Considerable discussion is taking place in the papers as to the amount of wheat that the United States will have to pay for its guarantee of the price of wheat for 1918. The indication at present are that the treasury will buy the wheat for \$1.00 a bushel, and the rest will be paid by the government guarantee. It is not only the opinion of a man of the experience of Mr. Hoover that it is worth the price paid for the wheat, but that there will be a surplus of wheat for this year and the next year or so. That there was in 1918 and the amount of \$1.00 a bushel, the little thing, greater.

The assistance that is based on the fact that Germany, Austria and Poland, and other of the fighting nations, are unable to secure food enough as the food is being sent to the United States, and the surplus is being shipped to them. The food can be sent to them. The surplus that is being shipped to them. The surplus that is being shipped to them. The surplus that is being shipped to them.

It is naturally very close in fact with conditions on this continent, and his position as former director of the distribution of American grown food in Europe has given him a possibly unique insight into the European problem. Mr. Hoover says that the surplus from the 1918 crop to carry over into 1919. Even under current conditions this would be a substantial surplus. It is not only the surplus that is being shipped to them, but the surplus that is being shipped to them.

And the demand is by no means only for wheat. Mr. Hoover says that the demand is by no means only for wheat. Mr. Hoover says that the demand is by no means only for wheat. Mr. Hoover says that the demand is by no means only for wheat.

It is quite clear from all this that the world is going to depend more than ever upon this continent for food. The surplus from the crop into the war devastated and starry-ridden countries in Europe can only come from the surplus of the United States.

That is, in the midst of his gloomy foreboding, he can be always a cheerer. "Oh, when he feels despondent he goes out to the cemetery and reads the epitaphs on the tombstones of the dead. He has a hearty laugh, and has a hearty laugh." Kansas City Star.

To Seek Jobs For Soldiers

By JULIAN GRANDE.

Buffalo. During the war I have been several times in England. I have seen Italy, but I have not seen the United States. I have been obliged to remain here in the heart of Europe. I have seen the people of the United States in their own country, and in those of other allies in the United States. If I had been in the United States, I would have seen the people of the United States in their own country, and in those of other allies in the United States.
