HOW TO AVOID BACKACHE AND NERVOUSNESS

Told by Mrs. Lynch From Own Experience.

Providence, R. I.—"I was all run down in health, was nervous, had headaches, my back ached all the time, I was tired and had no ambition for anything. I had taken a number of medicines which did me no good. One day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for women, so I tried it. My nervousness and backache and headaches disappeared. I gained in weight and feel fine, so I can honestly recommend Lydia E. Pinkham's Vegetable Compound to any woman who is suffering as I was."—Mrs. ADELINE B. LYNCH, 100 Plain St., Providence, R. I.

Backache and nervousness are symptoms or nature's warnings, which indicate a functional disturbance or an unhealthy condition which often develops into a more serious ailment.

Women in this condition should not continue to drag along without help, but profit by Mrs. Lynch's experience, and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound—and for special advice write to Lydia E. Pinkham Med Co., Lynn, Mass.

No man can choose his own father, but he can neglect his duty to his father's children.

"Cold In the Head"

is an acute attack of Nasal Catarrh. Persons who are subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the System, cleanse the Blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh.

HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surface of the System.

All Druggists 75c. Testimonials free.

If you have a case of Catarrh that HALL'S CATARRH MEDICINE will not cure,

F. J. Cheney & Co., Toledo, Ohio.

Talk is cheap, but somehow gossip always gains currency.

GAVE UP

Had Lost Twenty-Five Pounds From Kidney Trouble. Doan's Restored His Health.

J. B. Ragless, carpenter, 210 W. 60th St., Chicago, Ill., says: "My back gave out completely and I had to quit work. I could hardly endure the pain in my back and nights I tossed and turned unable to sleep. Often in the morning my back was as stiff as a board, so that I couldn't stoop to dress myself. When I did manage to bend over, everything before me turned black. My head seemed to be swelling and sometimes I was so dizzy I had to grasp something to keep from falling. The kidney secretions were irregular in passage, getting me up at night and they burned cruelly. I lost all appetite, was weak and listless and went down twenty-five pounds in weight. After I had given up hope I was persuaded to use *Doan's Kidney Pills* and they cured me. Soon after, I passed an examination for life insurance and I am glad to say my cure has lasted."

Mr. Ragless

Sworn to before me.

GEO. W. DEMPSTER,
Notary Public.

PLANT MORE CHERRY TREES

Good Reasons for Urging Increased Cultivation of Useful and Pretty Bearers of Fruit.

Although in at least two states, Pennsylvania and Ohio, there are more than 1,000,000 cherry trees and nearly as many in several other states, the commercial interests are relatively small compared with several other fruits in which the number of trees is considerably less.

In the south the summers are too long and hot, as a rule, for cherries to do well and they do their best at the higher altitudes.

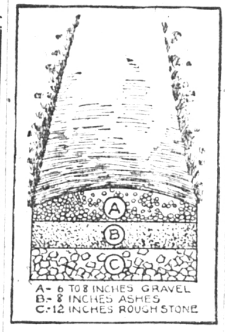
In their endurance of low temperatures sour cherries compare favorably with apples. Sweet cherries are less hardy than sour sorts. Their endurance of cold corresponds more nearly to that of the peach.

Cherries are sensitive to a poorly drained soil. Clay soils extremely retentive of moisture, give the poorest results and the lighter better drained soils the best. Soils that dry out excessively are also unsatisfactory. Moderately productive soils give better results than those which represent either extreme in fertility. Cherries bloom comparatively early, the sweet sorts earlier in most cases than the sour varieties; therefore sites that are subject to spring frosts during the usual blossoming period should be avoided.

MAKES GOOD GRAVEL WALK

Directions for Building Pathway That Will Last for Years and Always Be Dry.

To make a good gravel walk first dig a deep trench the full width of the walk. Fill up the first or bottom 12 inches of the trench with stones, including those found in digging it. On this have a layer of ashes 8 to 12 inches deep when well rolled. Finish off with about 6 inches of gravel, shaped so as to give a rounded surface, highest in the center.



A- 6 TO 8 INCHES GRAVEL
B- 8 INCHES ASHES
C-12 INCHES ROUGH STONE

This will soon pack down into a hard surface that will always be dry.

Many Factors in Tree Planting.

In places the trees along the roadside form screens so as to break up the long stretches of views and allow openings here and there which frame and make more attractive the roadside scenery. Again, certain varieties of trees are more suitable for highway planting than others according to the use to which they will be put. The factor of planting for the protection afforded the pavement through shade during the hot summer months, thereby adding many years to its life, and the assistance given by the proper planting of shrubs and trees in keeping the drifting snow from the roadside during the winter season should be likewise considered.

Business and Residential Streets.

Keeping business off residential streets means keeping it on business streets. Haphazard development hurts business property as much as it does residence property. The sporadic store invading quiet home streets not only demoralizes residential values; in decentralizing the shopping district it also disintegrates business values.

Viewed in every way the experience of New York has clearly demonstrated that no large city can afford to do without zoning.—American Architect.

Character and Careers.

Some one has said that character is greater than any career, and nothing that you will ever accomplish compares in importance to the making of yourself. To be noble, pure and strong, with courage for every misfortune, a helping hand for whoever needs it, and kindness for all, is worth more than to write one's name high in the list of those the world counts great.—Girl's Companion.

The Way to Save Time.

The only way to save time is to use it. We can put our money into the savings bank to be kept for us till we are ready to use, but there is no such thing as putting by our leisure moments till we need them. If you would save time, use it, for you cannot hoard it.—Girl's Companion.

GOVERNMENT BUYS CUSTER CAMP SITE

LEASED LAND ON WHICH CAMP IS LOCATED BEING ACQUIRED BY UNITED STATES.

WILL CONDEMN IF NECESSARY

Agent of War Department Dealing Directly With Farmers—Will Offer Reasonable Prices.

Camp Custer, Battle Creek.—Captain Henry B. Dahlberg, representing Secretary of War Baker, has arrived to purchase the 1,500 acres covering the site of Camp Custer.

He will deal directly with the owners, whereas Major Sam died all the leasing through the Chamber of Commerce. Dahlberg proposes to pay reasonable prices to bring the total with in the fund appropriated for the purpose, and expects to acquire the entire tract without condemnation proceedings.

3 U. S. PLANES TO CROSS SEA

Trans-Atlantic Flight Planned By Naval Aviators.

Washington.—Three Navy seaplanes, the NC-1, NC-2 and NC-3, will attempt the flight across the Atlantic Ocean. They will leave Rockaway Beach early in May, so far as is known now, no decision has been reached as to whether the flight will be direct from Newfoundland to Ireland or via the Azores.

Each plane is expected to carry a crew of five men and be driven by four Liberty motors of 1,000 horsepower and will carry sufficient gasoline to make a non-stop direct flight to Ireland unless very unless storms or strong head winds are encountered.

New York.—Naval aviators who are being considered as pilots for the seaplanes of the NC-1 type in the proposed trans-Atlantic flight have begun to practice night flying at the Rockaway station in the theory that the air is smoother at night.

FIVE BRITISH FLIERS BURNED

Plane Falls Pinning Aviators Under Flaming Debris.

Amiens, France.—Five members of the crew of a big plane in Paris aeroplane were burned to death when the machine crashed to the earth in an accident at the aerodrome at Nesle, near here.

The machine fell 150 feet and struck a telegraph pole. The big plane's carriage broke off and the machine fell on a road. The gasoline tank exploded and the machine burned so quickly it was impossible to free the imprisoned men.

A lieutenant and a sergeant managed to extricate themselves and were burned severely.

32ND DIVISION MEN HOME SOON

Vanguard of Fighting Wolverines Due At New York May 12.

New York.—Three more months on a war-stained front in Belgium and the rest of the Thirty-second division troops from the Rhine for Brest and for home, sort of embarkation officers said that the vanguard of the Red Arrow soldiers would arrive in New York harbor on May 12.

That part, at least, of the division's history was made for all time, is the belief of officers who have returned to the United States and who are planning the parade in Detroit. Memorial services, a certainty, and decorations have been advised to plan for a parade.

RED FLAG CANNOT BE FLOUTED

New Law Forbids Use of Anarchistic Banner in Michigan.

Lansing.—The red flag must come down in Michigan. Governor Sleeper Monday signed the Jenson bill which imposes a maximum sentence of five years' imprisonment or $1,000 fine or both, for displaying the crimson banner in any public assembly parade or demonstration.

The law will affect principally Detroit, where socialists, anarchists and other organizations use the red flag as their emblem.

$10,000 Voted to Compile War History.

Lansing.—Without a dissenting vote the senate passed Senator William Hierd's bill to appropriate $10,000 to be used for the publication of a history of the Thirty-second division. The state of Wisconsin is expected to appropriate an equal amount and the history will be published jointly by the two states. There was no opposition to Senator Connelly's bill appropriating fifteen thousand dollars for repairing the armory at South Haven, Michigan.

As a Man Striveth

By HARRY F. BOWLING

(Copyright.)

"I wonder what finally became of Adrian Hooper?"

Isabelle spoke listlessly; there was no inflection in her voice—her tone was negative.

"Poor Adrian! he was one of the misfits. Nothing ever becomes of such men. They simply exist."

I tilted back my barber chair and puffed lazily at my cigar. We had been discussing the 10th anniversary of our wedding day; we had dined comfortably and now, lounging on the terrace of our Monterey villa, the world lay at our feet in the mellow light of twilight.

"Adrian was a dreamer," I continued. "He had the ideals of a poet, but he lacked the practical qualities that make for success. He was a failure."

Isabelle sighed. I could not tell whether it was a sigh of regret or relief.

"Adrian was a dreamer of dreams, Isabelle, but he was not a failure. He was a poet, and he lived his life as he wished to live it. He was not a failure."

"Don't you think you are a little severe, Dick?" she asked. "Adrian was a dear friend of ours before we were married. How do you account for the fact that five years ago he had no talents to speak of, and now—"

"I quite understand your point of view, Isabelle," I replied, "but I still maintain that Adrian was a failure. He simply existed. He was not a man of action. He was a dreamer, a poet, a—"

"Why, I have always considered you better in spirit."

"You mean something sweet. You thought I could rest on your laurels. How do you account for the fact that five years ago I was building castles in Spain
