Don't Bring in the Porch Chairs

Let it rain on them! No matter how wet they get they will be as good as new if previously you have given them a coat of Cosmolac. For porches, porch furniture, rustic work of all kinds, there is no varnish more comparable with

Cosmolac

Sunshine or rain, heat or cold do not dim the permanent lustre nor make Cosmolac cracked or sealed. It is a transparent preserver for everything outdoors of oak, where clear varnish is required, and its preserving qualities are exceptionally lasting.

Cosmolac can be washed with soapy water or washing compounds; is not affected by alcohol or alkali; will not scratch nor bruise white nor become brittle. Submit it to any test with any other varnish made and the results will be a triumph for Cosmolac. You should have a can in your house at all times.
