

Vote 'YES'

on the

School Bonds

Because half-day sessions are inevitable next year if a new School is not built.

Because a new School will attract new home builders whose tax payments will make taxes lower for everybody.

Because a new School will add to the value of every piece of property in the entire School District.

Because a new School situated on the east side will promote an even, symmetrical growth of the entire community.

Because a new School proclaims to the world that Birmingham believes in its own future.

Because a new School proves that Birmingham is farsighted and progressive enough to meet its School congestion problem before it becomes acute.

Because if only one child is saved from death in the traffic of Woodward Avenue, you'll be glad you helped save it.

Birmingham.

TO DETROIT EDISON CUSTOMERS

In All Places Served by the Company Including Port Huron

We have notice from H. A. Garfield, U. S. Fuel Administrator, that coal should be used only for essential purposes, that public utilities consuming coal should discontinue to furnish power, heat and light to non-essential industries and only consume sufficient coal to produce enough light, power and heat to meet the actual urgent needs of the people. Pursuant to this order the United States Railroad Administration declines to furnish us any coal to be burned by us for the service of any customers who could not receive coal direct. Advertising signs and displays are expressly ordered curtailed. We therefore, give notice as follows:

Factories and Workshops

Factories and workshops will, as of midnight Saturday, reduce their use of Edison current to the least amount that is required for fire protection, watchmen's lights, and the carrying on of processes which cannot be immediately stopped without loss of material being worked upon or damage to machinery. But in no case shall the use of current in any day be more than one-fifth of the ordinary use of current for that day.

Excepting that those factories preparing or distributing food, fuel or necessary clothing not subject to the luxury tax, may continue to operate to such an extent as required to produce these necessities; and

Excepting that current may be used for the production of material actually under order for the United States Army or Navy and for building material to be actually employed in the erection of residences now under construction, upon the filing with the Company the evidence that the current is being used for these purposes and not otherwise.

Stores, Theaters, Etc.

The use of display lighting and of all electric signs, excepting only a sign over the door bearing the name of the store or theater with light or display, is prohibited. The door sign must not be lighted during the daylight and must be extinguished when the store closes, or in case of the theater or moving picture house, as soon as the last performance begins. This is the same order as was in effect during the war period.

These orders are in effect at midnight, Saturday, December 6th, and until further notice. We fear they may continue in force for several weeks.

The responsibility of enforcing the requirements of the Fuel Administration is placed upon this Company. We believe that our customers will conform now as they did during the war. If any customer does not conform, the responsibility placed upon us will require us to cut off his entire service, because he will be endangering necessary service to others.

FURTHER RESTRICTIVE ORDERS ARE EXPECTED.

How Eagles Secure Prey.
 Eagles usually hunt in pairs, one bird frightening the prey from its hiding place and the other pouncing on it as it tries to escape.
