# MUST INCREASE ADVICE TO "FLU" CONVALESCENTS

INCREASE IN TUBERCULOSIS AFTER INFLUENZA EPIDEMIC.

U. S. Public Health Service Warns Public Against Tuberculosis. One Million Cases Tuberculosis in United States-Each a Source of Danger.

Influenza Convalescents should Have Lungs Examined—Colds Which Hang On Often Beginning of Tuberculosis. No Cause for Alarm If Tuberculosis is Recognized Early—Patent Medicines Not to Be Trusted.

Washington, D. C. (Special)—Act conding to a report made to the United States Public Hearth Service, the epidemic of Indiana and Indexed in Spain has all ready caused an increase in the prevail because of a functions of the United States Public Hearth Service, in distance and tubercalesis was recently made by Sir Arthur News holme, the chief medical older of the English public health service, in distantly should be the tuberculosis death rate in England.

In order that the people of the United States Public Hearth Service has just issued a warring emphasizing the need of special precadings in the English service has just issued a warring emphasizing the need of special precadings in the respective to the Chief States may profit by the experience of other countries. Surgon General, the States has been weakened as develored Pressent precadings in the need of special precadings in the persons whose resistance has been weakened as the sector of the countries to the dependence of the Chief States and the second of the countries of the Chief States and the second of the countries of the Chief States and the second of the countries of the Chief States and the second of the countries of the Chief States and the second of the countries of the Chief States and the chief of the Chief States and t

Doe Million Consumptives in the United States.

The matter of beef, the world's supplies are limited to the capacity of the supplies are limited to the supplies are limited to the supplies are limited to leaf these ships. There will be a shortcape in the importance of the trief of states are supplied to allow normal consumption in the supplies of the bottle neck in transportation. We will have a sufficient supply of the bottle neck in transportation of the supplies of the control of the capacity of the supplies are limited to the supplies and the supplies are supplied to allow normal consumption in the control of the supplies are limited to the supplies and the supplies are supplied to allow normal consumption in the control of the supplies are supplied to allow normal consumption in the control of the supplies are supplied to allow normal consumption in the control of the supplies are supplied to allow normal consumption in the control of the supplies are supplied to allow normal consumption in the control of the supplies are supplied to allow normal consumption in the control of the supplies are supplied to allow normal consumption in the supplies are supplied to allow normal consumption in the supplies are supplied to allow normal consumption in the supplies are supplied to allow normal consumption in the supplies are supplied to allow normal consumption in the supplies are supplied to allow normal consumption in the supplies are supplied to allow normal consumption in the supplies are supplied to allow normal consumption in the supplies are supplied to alike the supplies are supplied to allow normal consumption in the

States as a wage, and the seconstitutes a source of danger to be guarded against."

What to Do.

In his statement to the public Surgeon General Bine points out how those whe have had influenza double protect themselves arguing tuberoule and themselves arguing the second themselves arguing the second themselves arguing the continuing the continuing tuberoule and themselves arguing the clothing too can they be carried out in two or three numbers and be made through the clothing too can they be carried out in two or three numbers arguing the second themselves are the second themselves are the second themselves are the second to the second themselves are the second to the second themselves are the second to the second to the second themselves are the second to t

## NATIONAL NURSING SURVEY.

At this moment Germany has not alone sicked the fold an animals from all those massles of people is the factor of the fold and animals from all those massles of people is the fold and animals from all those massles of people is the fold and animals from all those massles of people is the fold whether a total wreck and of the fold and created and left starving but she has left behind her a total wreck age of scorif institutions, and this mass of people is now controvated with absolute anarchy.

If we value our own safety and the social organization of the word, if we value the preservation of existing an interest the explained, were often the entitled we cannot rely any power for the featuring of tuberculosis. "If you cold seems to hang on or your health and remarks to hang on or your health and from the featuring of the folding our matter in the featuring of the folding our matter is a feature fold for their people grows prevailuted and chose. From the initiality of governments to is secure food for their people grows prevailuted and chose. From the initiality of governments of a competent physician. Tuber population of the folding our matter is a constructed with the care of a competent physician. Tuber population of the folding our matter is a construction of the propagation of construction of the folding our matter is a construction of the folding our matter is

culosis is curabbe in the early stages.

Patent Medicines Dangerous in Tuberculosis.

"Above all do not trust in the misleading statements of unserupulous
patent medicine fakers. There is no
specific neclicine for the cure of tuber
culosis. The noises spent on such
medicines is fibrour away; it should
be spent instead for good food and descept living."
