

Nothing but Time.
 Former Kaiser now devote part of his time to his favorite hobby, collecting birds. He has a collection of bird eggs, and he plans to have them put on glass so they may be exhibited on the photographic. Kansas City Star.

FRECKLES
 Now is the Time to Get Rid of These Ugly Spots
 There is no longer the slightest need of fretting about the appearance of your face. Freckles are guaranteed to remove these spots.
 Simply get an ounce of Othine ointment from your druggist and apply a little to the spots. It will be gone in a few days. It is the only medicine that does this. It is the only medicine that does this. It is the only medicine that does this.
 An ointment that particularly fits the company it keeps.

This year for the first time since the Leipzig fair was held. The photograph shows the things shown in the exhibit in Peter street.

Save the Babies
 INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty two per cent. or nearly one-quarter, die before they reach one year; thirty-seven per cent. or more than one-third, before they are five, and one-half before they are fifteen.
 We do not hesitate to say that a timely use of Castoria would save many of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, more or less opium or morphine. They are, in considerable quantities, more or less opium or morphine. They are, in considerable quantities, more or less opium or morphine.
 Give me a couple out of the middle of the pack, son. I'm taking my city cousin to the theater tonight and she had me to be sure and get seats in the center.
 Jap Farmers Prosperous.
 His New Excuse.
 From the Middle of the Pack.
 Frenchman on Princeton Staff.

Frenchman on Princeton Staff.
 Left: Louis Goss, who was decorated by the French government as late as 1919 for his part in the former German campaign before the war, has been appointed assistant professor of French in Princeton university. After the outbreak of the war Lieutenant Goss was assigned to the intelligence department of the French army. At one time he was a member of the faculty at Bryn Mawr college.

His New Excuse.
 Mrs. Hainish: How have you been this late hour?
 Mr. Hainish: To the lecture, as I told you before I went.
 "The one would be at a lecture as late as this."
 "Oh, yes I would. You see, the lecture started."

"Meats in Storage"

Every working day of the year 75,000,000 pounds of meat are required to supply home and export needs—and only 10 per cent of this is exported.

These facts must be kept in mind when considering the U. S. Bureau of Markets report that on June 1, 1919, there were 1,348,000,000 pounds of meats in cold storage. If the meat in storage was placed on the market it would only be 20 days' supply.

This meat is not artificially withheld from trade channels to maintain or advance prices.

Meats in storage consist of—

65 per cent (approximate) hams, bacon, etc., in process of curing. It takes 30 to 90 days in pickle or salt to complete the process.

10 per cent is frozen pork that is to be cured later in the year.

6 per cent is lard. This is only four-fifths of a pound per capita, and much of it will have to go to supply European needs.

19 per cent is frozen beef and lamb, part of which is owned by the Government and was intended chiefly for over-seas shipment. If this were all diverted to domestic trade channels, it would be only 1 1/2 lbs. per capita—a 3 days' supply.

100%

From this it will be seen that "meats in storage" represent merely unfinished goods in process of curing and the working supply necessary to assure the consumer a steady flow of finished product.
