

THE UNIVERSAL CAR

There's the same economy in using the one-ton Ford Truck that there is in using the Ford Car—only the larger carrying power of the Truck commends it particularly to farmers, and other business men. The famous Model T motor assures reliable power, and lots of it; the manganese bronze worm drive makes certain the use of all that power; the three-point suspension gives flexibility, and vanadium steel strength. Price, without body, \$550 f. o. b. Detroit.

'He was a man, take him for all that, but don't look upon his face again; and no man among us will be more severely missed. A fine man with a fine heart and a fine proportion to his size and height, in every respect.

The snows of 75 winters had only served to whiten his hair and make him more manly in those who had known him longest and loved him best. His hearty 'good morning' was a pleasing sound for all.
