Ford

THE UNIVERSAL CAR

The Ford One-Ton Truck may well be classed as an agricultural necessity, it fits into and fills so many wants on the farm. It is a reliable bearer of farm burdens, not only doing the work of several horses quicker and better than the horse, and does not "eat its head off" when not working.

The Farmer's Truck

The aggressive farmer has only to consider the possibilities of the Ford Truck and he is ready to buy one. We judge this to be so from the way farmers are buying them.
