CITIZENSHIP AS A REWARD

Major Ferris' Development Battalion at Camp Upton Furnishes Basis for New Activity—Splendid Results Already Shown.

Camp Upton, L. I. The knowledge gained during the war in connection with the training and instruction of illiterate and non-English speakers is to be turned to account in the recruiting of a peace-time army.

By direction of the war department there is being established here "the first 'seventeen educational camp' for which 50 barracks and other buildings have been set aside and it will be conducted on the lines followed by Maj. Ralph Hull, Paris, when he made such a success of development battalion No. 6, which went out of being when the armistice was signed. Major Ferris is setting up a camp to serve office to become commander of the center, which is the outgrowth of his own plan.

Brigadier General Nicholson, camp commander, received within a few days the order to establish the center, and recruiting has begun throughout the eastern and northeastern departments of the army.

Will Be Taught English. An illiterate or non-English speaking recruit who enlists under the new plan will be taught to speak English while receiving thorough American training from officers, non-commissioned officers, and in addition get citizenship papers when his enlistment term of three years has expired.

Under the draft act 249 per cent of the men enlisted, or practically a quarter of them, were unable to read a newspaper or write a letter home. There were 1,000 such men who here and they were put in Major Ferris' development battalion. His method

by the mass halls, military formations and general gatherings of the men. Instruction, except in the elementary classes was given in English.

Made Good Progress. Within three months men who could speak little or no English when they entered the battalion became sufficiently proficient in military English to fulfill the ordinary functions of soldiers both in organization and in separate missions. In addition practically all of the recruits proved their worth of Americanism by becoming citizens.

The recruits upon being accepted for the new center will be classified according to their knowledge of English and assigned to battalions accordingly. A school of instruction of the illiterate and non-English-speaking recruits is being established. The course of instruction will be four to six months in exceptional cases. The first will be classes of groups of 12, 20 and will be graded according to the progress shown.

A board of examiners will examine the recruits by classification and prepare suitable tests to determine the rate of progress. Examiners of different nations and the Germans for their lack of wariness. When the recruits have developed sufficiently for assignment Major Ferris will report them to the adjutant general of the army for disposition.

Antwerp Livers Up

Antwerp, Belgium appears to be passing through a process of resurrection. Although the damage inflicted here in the past was extensive, it is being repaired and the city is being rebuilt.

The American government has been generous in its aid to Belgium. It has supplied the city with food and other necessities. The city is now being rebuilt and the damage is being repaired.

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are advertised are not all at once dropped out of sight and are soon forgotten? The reason is plain: the article did not fulfill the promise of its manufacturer. This applies more particularly to a medicine. A medicine is supposed to do something and if it does not, it is not a medicine. It is a waste of money.
