THE RENOWN UNDERFEED

Is the new principle! Hereafter that those days of fuel scarcity call for it! It attacks every particle of heat out of the fuel consuming stoves, smoke-gases, etc., leaving an ash as fine as powder, saving much fuel. Also when it you can use soft coal as cleanly as hard coal.
Our special low selling expense makes our prices on these stoves very low, as well as on other goods.
AT LAST
It has arrived! several carloads of beautiful period furniture for the best room, living room and dining room. People who high prices asked elsewhere have discouraged from buying will find relief here.
They also now will have a splendid assortment to select from, something that we have not been able to offer for months, owing to the scarcity of furniture.
But call at once, for these beautiful pieces are going fast.

PEOPLE TELL US OUR STORE IS DIFFERENT

Of course it is different.
Because it's a service grocery. It's not just a store where groceries are sold.
It's a place where everything is done to make buying groceries a real pleasure.
A big stock of good things to eat. Courteous, intelligent clerks who understand their business thoroughly. Prompt deliveries.
A telephone that is always open to you.
A place where you can have a charge account if you so desire.
A store that sells quality goods which it can recommend without the slightest fear or hesitation. To illustrate what we mean, just consider the question of baking powder. It's only a small part of our entire business but we consider it a most important feature.
Because baking powder plays such a vital part in the preparation of food in your home. If it isn't good it can ruin a great amount of good material. Therefore the baking powder we recommend must be good—so good that we won't have the slightest chance of displeasing a customer.
It is just this way with all the goods we sell. We are always sure that what we sell will be the best of its kind and we are always sure that it will be the best of its kind.

Action—

—Not Talk, Is What Farmers Must Have Now

Why is it almost impossible to get competent farm help at any price?
Why are so many boys and girls of the farms leaving for the cities?
Why is the farmer always hit first in attempts to cut the costs of living?
Why is it so difficult to show profit on the right side of the farm ledger?

The answer is easy—Every wise farmer knows it—it is simply that there has been no agency powerful enough to promote and protect efficiently the interests of agriculture. But now—

The Michigan State Farm Bureau

—is re-organized on a big basis and is ready to go to work for you. It is ready to meet your needs commercially, politically and educationally, and to solve your problems. It is an organization of farmers, run by farmers for farmers. For it to carry out its broad, vital program of making the business of farming more profitable and attractive, it must have solid support from the farmers of Michigan.

Have You Signed Up With It Yet?

If not, there's no time like the present—The membership drive in Oakland county is under way—Farmer solicitors are canvassing the county and are ready to explain fully any particular of the movement desired.

Get in line with the rest of the wise farmers of Oakland county and of the state behind THE MICHIGAN STATE FARM BUREAU.
