THE UNIVERSAL CAR

There are more than 3,000,000 Ford cars in daily service the world over, and every eighty persons of the world own a Ford Motor Car. There are many reasons for this, and the principal reason which is the one given by the majority of owners, so can't be mistaken, is because it is economical to operate, and in this respect it excels by far any other motor car. On the farm, in the city for business, and for family pleasure, it is the car of the people, and the demand is increasing every day. Let us have your order promptly if you want one.
