since.
Except for a few newer streets, it still is time that Canton is a writy of a million without a wheel or a beast of burden? Strangely ancient in some respects, Canton long has practicel some of the expedients which are hos ling urged as experiments in western lands.

So far as her business district y concerned, the city is thoroughly "moned." The shopper may find providing the city has to offer the city has to offer business of carving on doe street, in sitis and one brothertes on another, in passes and precious stones on mother, burning the coal shorten in our castern states in recent winters, efforts were made to do cooking at ceptral kitchesis and server food 'fready to sat'' at homes in the neighborhood.

Fighting the Plague.

Human | life | Inevitably | becomes cheaper in the milst of concession suffering and poverty. Early efforts to fight the bubonle plague were grave by met with the argument that there were too many months to feed, anyway, in Cathon, and the plague, like the typhoens, were providential for those who secaped.

Humane science finally won the day, and the tin leave on street corners are not to be installed for trush population. They are for dead ratis, which are collected and burned. The tornades waved need the have because of the position dwelling place of some 12-leave of Canton the Markov her dead of the property of the property of the property for the property for women formerly for women formerly for women formerly for the property for the propert
