Seven Things To Be Sure Of

IN THE PURCHASE OF YOUR PIPELESS HEATING SYSTEM

That the quality of heating service assures a comfortable, clean, healthful home in any weather.
 That the convenience of simple operation, regulation, and quick heating compares favorably with much more expensive types of heating systems.
 That the low first cost is due to economy of material and labor instead of changes of construction.

That the low first cost is due to economy of material and labor instead of cheapness of construction.
 That the fuel bill can be reduced from 1-4 to 1-3—enough to save handsome dividends on the amount invested.
 That the "upkeep" or expense for repairs is positively less than any other types of heating systems.
 That you are protected at this store, because of the manufacturer's refusal to authorize installation where their trained heating engineers cannot safely guarantee it to operate efficiently in your home, their decision being made after careful study of conditions in your home—no guess work—thus protecting all concerned.
 That the purchase will increase the value of your property more than the amount invested.

ALL ARE TRUE OF THE ROUND OAK THAT'S WHY WE SELL AND RECOMMEND IT STATE FAIR VISITORS—Visit either of our down-town stores and let our heating expert go over the proposition with you
