United States Bad Lands

This is the translation of "Manuelo Terro" the name used by the French Canadian trappers to describe those regions of unconsolidated rocks that have been extensively eroded. Bad lands occur in arid districts formed by horizontal strata of loosely cemented sands and gravels. The best examples of such regions are found in the upper portion of the Mississippi drainage basin, in the vicinity of the Black hills. Some are to be found also in Colorado, Arizona, New Mexico and Texas.

New Fossil Beets Discovered

What is pronounced by scientists as one of the most perfect fossil beet in the United States in respect to preservation, has been discovered in the mountains near Kemmerer, Wyo. The fossils are those of fish bodies and represent more than a dozen different types, several of which, it is said have been hitherto unknown to the scientific world. The entire bodies in several cases are intact, and the bones and tissues, usually obliterated, are clearly definable.

Human Thermometer.

At the far top of the list of the famous poetry works of King Terebinth, (China), and in the chimney are hidden a foot square into which a man, who acts as a human thermometer, looks to determine the heat. His method is simple. He steps into the hole, and if the split turns to steam, the temperature is not sufficient. When the heat is so great that the man is shot back at him with a little explosion, everything is all right.—John Knight Slurlock to Asia.

Pet Had Various Names.

A neighbor, seeing the seven-year-old daughter of a geologist playing with a tattered but cherished kitten, asked what her pet was called. "Well," replied the precocious youngster, "that depends. Father calls her a megacanth from an intrusive magma of doubtful provenance; mother refers to her as the basement complex; sister Helen insists that she is a typical example of secondary Impoverishment; but I just call her my dear little kitty."

POOR ROADS ARE EXPENSIVE

Farmers Cannot Haul Produce to Market When Prices Are High on Account of Highway.

It is a well-known fact that the cost of hauling produce to market is a very important factor in the price of the goods. When the roads are in poor condition, the cost of hauling is high, and the price of the goods is high.

Federal Aid Helps Poor States.

The highway department will receive \$9,000,000 for the construction of public highways in the states for the fiscal year 1920. The money will be divided among the states in proportion to their population.

Provide Free Range.

When possible free range should be provided for the breeding stock.

Pullets for Winter Eggs.

If given proper care, the early-laying pullets lay the most eggs during the winter months.

Deliver by Parcel Post.

Deliver parcels post, but do not deliver parcels post if the goods exceed his working territory.
