Customers' Co-operation

The equipment of all public service enterprises in Michigan, which are privately operated, during the war is essential to the victory.

There can be no doubt that to keep them up to standard.

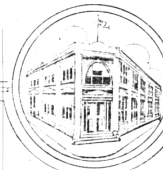

As a result the service of these utilities was greatly improved and the time and money will be required to bring them up to date.

In the meantime the public is inconvenienced.

Michigan has been most fortunate. Her utility companies have been exceptionally well maintained. This has been due to untiring effort and balance upon the part of operating officials and the public's willingness to pay liberal rates. The Public Service Commission must continue to charge rates which will maintain good service, since rates of some of our utilities that service costs more than it did six months ago, and costs are still advancing.

The successful telephone company must have the confidence of its patrons, particularly with respect to the payment of fair rates.

MICHIGAN STATE TELEPHONE COMPANY

A SUGGESTION

When making a banking connection is it not pleasant to feel that your account is welcome whether it be large or small?

The cheerful, helpful, personal service of this bank is impartially rendered to all depositors.

THE PEOPLES STATE BANK OF REDFORD
