HOW TO PROTECT ANCESTRY OF WELL-BRED CHICK IN INCUBATOR

Each Egg Should Be Labeled With Hen's and Pen's Number and The Product of Each Hen Separated in Bases or Wire Baskets—Baby Chicks Leg-Banded

Checked No. 1161. The dam of the bird was No. 287. She laid six eggs, one of which was in her pocket. She was the mother of 220 eggs in her pocket. She was the mother of 220 eggs in her pocket. She was the mother of 220 eggs in her pocket.

It is a well-known fact that the ancestry of a well-bred chicken is of great importance. The Department of Agriculture has issued a circular which explains the method of labeling eggs and chicks. This circular is a valuable reference for all poultry raisers. It contains information on how to label eggs with the hen's and pen's numbers, and how to band the legs of baby chicks. This information is essential for maintaining the purity of the breed and for identifying the parentage of the birds.

Trap Nests Necessary
To protect a chicken from the depredations of a fox, a trap nest is a necessary piece of equipment. A trap nest is a device that allows a hen to lay her egg in a safe place. The hen enters the nest through a door, and the door closes behind her. This prevents the fox from entering the nest and taking the egg. Trap nests are available in various designs and materials. They are an essential investment for any poultry raiser who wants to protect their birds from foxes.

EAT BROWN BREAD

Combined with Butter it Furnishes a Most Nutritious Meal

For the same reason that the more fat the firm margarine contains, the more nutritious is the bread, that is because of the high content of butter and brown bread. The New York Medical Journal states that brown bread is rich in vitamins. The grain is entirely composed of the hull which contains the vitamins, and it is not so much the amount of fat as the amount of vitamins. The amount of fat in brown bread is not as important as the amount of vitamins. The vitamins in brown bread are essential for good health and are a valuable source of energy.

USE DAMPERS: SAVE HEAT

Prevents the escape of heat from the boiler and saves fuel

When a boiler is operating, a large amount of heat is lost through the chimney. This heat is lost because the air in the chimney is hot. If the boiler is equipped with dampers, the heat can be saved. Dampers are devices that can be closed to prevent the escape of heat. They are a simple and effective way to save fuel and reduce the cost of operating a boiler.

NOVELTY SEED OFFER

NEW SEEDS FOR SALE AT SPECIAL PRICES

For the same reason that the more fat the firm margarine contains, the more nutritious is the bread, that is because of the high content of butter and brown bread. The New York Medical Journal states that brown bread is rich in vitamins. The grain is entirely composed of the hull which contains the vitamins, and it is not so much the amount of fat as the amount of vitamins. The amount of fat in brown bread is not as important as the amount of vitamins. The vitamins in brown bread are essential for good health and are a valuable source of energy.

Has Novel Wage Plan

Word comes from Sidney, Australia, of a novel plan for the adjustment of wages to living costs.

The plan is to have a committee that will determine the cost of living in each area. The committee will then set a standard wage for each area. This standard wage will be adjusted as the cost of living changes. This plan is a novel way to ensure that workers receive a fair wage for their work. It is a way to protect workers from the effects of inflation and to ensure that they can afford to live on their wages.

SPECIAL OFFER

DANGERS OF SEA DECREASED BY TEARING SOUNDER

Tests that have been made with a new instrument for measuring depth and distances at sea indicate that the apparatus is an improved form of the device on sea-going vessels.

The invention consists of a new instrument for measuring depth and distances at sea. It is a more accurate and reliable device than the one currently in use. It is designed to be used on sea-going vessels and is a valuable addition to their equipment. The instrument is easy to use and provides accurate readings. It is a significant improvement in the technology of sea-going vessels.

LIKE A POE STORY

Ship's Linnear, Rm. Annals, Who Haunted by Murder in Sleep

The story of a ship's linnear who was haunted by a murder in sleep is a true and terrifying tale. The linnear was a man who worked on a ship. One night, he was sleeping in his quarters when he was awakened by a strange noise. He went to investigate and found a man lying on the floor, apparently dead. The linnear was shocked and frightened. He reported the incident to the captain, who was also shocked. The incident was a mystery that was never solved.

DRYS TO CONTINUE WAR

Will Carry on Fight Against Bolshevism All Over the World

The Anti-Soviet League's program for 1920 is of great importance. It is a program that is designed to continue the fight against Bolshevism. The league is a group of people who are dedicated to the cause of anti-Bolshevism. They believe that Bolshevism is a threat to the world and that it must be stopped. The league's program is a call to action for all people who share their beliefs.

LETTER TO PREPARE 120 EGGS A YEAR AND FURNISH HEALTH

While the weather is freshening the heavy frost, it is time to prepare for the winter.

For the same reason that the more fat the firm margarine contains, the more nutritious is the bread, that is because of the high content of butter and brown bread. The New York Medical Journal states that brown bread is rich in vitamins. The grain is entirely composed of the hull which contains the vitamins, and it is not so much the amount of fat as the amount of vitamins. The amount of fat in brown bread is not as important as the amount of vitamins. The vitamins in brown bread are essential for good health and are a valuable source of energy.

VARIETY OF FOOD BEST FOR FOWLS

That Only Influences the Number of Eggs, but Governs the Quality

It is a well-known fact that the variety of food that a chicken eats has a significant effect on the quality of its eggs. A diet that is rich in variety will result in eggs that are larger, more nutritious, and more flavorful. On the other hand, a diet that is limited in variety will result in eggs that are smaller, less nutritious, and less flavorful. Therefore, it is important to provide a variety of food for your chickens.

CRISOE'S MUSKET

Collector found it in France and England 842 for It

The story of Crisoe's Musket is a tale of discovery and adventure. The musket was found in France and England. It is a rare and valuable artifact. The collector who found it was a man who was interested in the history of firearms. He was searching for old muskets and he found this one. It is a piece of history that is worth preserving.

WORLD WIDE RED PLOT IS REVEALED

It is reported that government agents have uncovered evidence of a plot to overthrow the government.

The plot is a worldwide one and involves many countries. It is a serious threat to the stability of the world. The government is taking steps to investigate the plot and to prevent it from succeeding. It is a matter of national security and the world is watching.

FEWER OILS GROWN

Production in the United States has declined due to a variety of factors.

The decline in oil production is a concern for many people. It is a source of energy that is essential for our lives. The decline is due to a variety of factors, including a decrease in the number of oil wells and a decrease in the amount of oil that is produced. It is a problem that needs to be addressed.

IN ARGENTINA

A Land Where the Farmer Has Ample Time to Spend on His Farm

The Argentine farmer has a lot of time to spend on his farm. This is because of the large size of the farms and the abundance of labor. The farmer can spend more time on his farm and can produce more crops. This is a good thing for the farmer and for the country.

LOSS IN DECAYED FOOD

At a food conference held under the auspices of the Columbia University

The conference was a success and provided a lot of valuable information. It was a chance for people to learn about food and how to use it. It was a chance for people to share their ideas and experiences. It was a chance for people to make a difference in the world.

FIVE DOLLARS A QUART FOR MILK

Price of milk in some areas has risen due to a variety of factors.

The rise in the price of milk is a concern for many people. It is a source of nutrition that is essential for our lives. The rise is due to a variety of factors, including a decrease in the number of milk cows and a decrease in the amount of milk that is produced. It is a problem that needs to be addressed.
