

HEARSSES HOLD UP TRAFFIC IN VIENNA AND OTHER PARTS OF HORROR-STRIKED EUROPE, SAYS BRITISH RELIEF WORKER

In Serbia Alone, Declares Sir William Goode, There Are 500,000 Fatherless Children; Sees Bolshevism As Menace to Whole World

On the famous tracks places are Europe's most terrible scenes of war. The statement made by Sir William Goode, British director of relief, is true that American Uncle Sam is in London.

"It's upon leaving Vienna," he says, "that I thought I had pent 10 days in the cell of a condemned murderer who has given up all hope of a rescue. I started at 6 o'clock, but I was 8 o'clock in the morning. Time 4 was there. In the bitter cold hall of the hotel, since the hasty rendezvous in Europe, the visitors huddled together in the gloom of one light."

"They were more like shadow than people, living or dead. Vienna's world-famous Opera House is packed every afternoon. Why? Women and men go there in order to keep warm, and because they have no work to do.

Tries An Experiment

In my office I made several experiments at working in several countries, and asked the tax authorities there to make some concession above freezing point. Finally I determined to get wood enough to light the one small fire for two days. It cost me 650 crowns, which to the Viennese is equivalent to about \$100 or \$200.

"Do you wonder that the well-to-do people in Vienna are burning their furniture to light their stove? Can you imagine how the poor live or try to live?" It's not unusual to see the traffic signs of the train-track which leads to the railway cars, piled high with coal. Ninety-nine cars, the bodies of children."

In Serbia alone, Sir William declared, there are 500,000 fatherless children, most of whom are suffering from starvation.

"It seems to me that you cannot triumph with starvation and privation in Central Europe such as prevails today in Vienna without running the risk of a carnival of Bolsheviks, which would probably not be confined to this continent."

TWO MOTOR SHOWS FOR GRAND RAPIDS

Pleasure Cars and Trucks and Tractors Will Be Exhibited

The Grand Rapids Automobile Business Association announces that the big annual automobile show this year in rear will come off April 26 and 27 on the fair grounds at the old site for the trucks and tractors.

The exhibit, which will begin Friday, April 26, in the Kalamazoo Auditorium, will be unusually large, but a number of new features in the decoration line are promised by those in charge of the big indoor exposition.

The exhibition committee, operating under the present chairman, Mr. W. L. Barnes, has reduced one of the sources of its revenue in the hope it could be sold for a good price to enter collectors.

THE NEXT WAR

EXPERTS Say it Will Be Fought on the Center of the Earth

As a result of the next war will be fought on "the center of the earth" and in the same way give us a new expression. This fix the limit of altitude at 20,000 feet, thereby establishing the height of the ceiling above the center of the earth.

There is no reason to doubt the statement of the aviator. Indeed, many men continually express the belief that the next war will be fought far below the surface of the earth. The nation that does not make the effort to be the first to penetrate the center of the earth, the nation which has submitted the center of the earth to the control of the enemy, will be the last to be beaten in the war, but never the last.

Clementine May Be President Despite numerous reports to the contrary, it is rumored in Paris that Premier Clemente may be a candidate for the office of President of France.

The election of Paul Deschanel, to the presidency of the Chamber of Deputies is considered as weakening his chances for the presidency of France and leaving a clear road for Clemente should he become a candidate.
