You Control The Michigan State Telephone Company—

Your telephone is operated by a company, organized and controlled under the laws of the State of Michigan.

So far as its rates are concerned, it is directly subject to the decisions and direction of the Michigan Public Utilities Conmission.

mission.

You, through this commission, actually control the telephone service which is so intimately a part of your every day life. Its future success or failure is directly in your hands, because the commission must have your moral backing if it is to deal fairly with the telephone company in the matter of revenues. Sufficient and adequate revenues are absolutely vital to the very existence and the development of the utility. Without them the telephone cannot properly function in the industrial and social advancement of the State.

The close association of your telephone company with the Bell system of America gives you the advantages of a service which is world-wide in its scope. By means of this service, you can, at your will, talk to any one of 13,000,000 telephones in use throughout the United States today.

It gives your telephone company, too, the advantages of the scientific research of the greatest telephone engineers in the world. This research has developed the telephone art in the United States until today it is by far the most efficient in the world. It is daily developing new improvements which will do much to make your service better.

The officers of your telephone company, who are directing its affairs, are Michigan business men, keenly alive to the many problems incident to the development of the State.

And so it is throughout the entire personnel of our company. It is made up of men and women, actuated by no other desire than to do their jobs well and to deserve this great responsibility of giving to the people of Michigan the kind of telephone service they desire.

MICHIGAN STATE TELEPHONE COMPANY
