

PEOPLE'S COLUMN

This column will be devoted to the residents of Birmingham who wish to read the lives of Birmingham in the light of an editor's pen pertaining to the welfare of the community.

WIFE WORRY

(By WILMA M. DEWEY.) If you are going to do anything of importance in your life, you must first get into the position of mind with which the rest of the world and women of it say and run a woman's life. You must be prepared. And may the gods be good, keep you.

These calamity howlers give me a pain with their ranting and raving and their stumps and lower prices before the business. They are the only people who seem to have no sympathy for the man who works hard to support his family. They are the only people who seem to have no sympathy for the man who works hard to support his family.

And while they are passing around the advice of a family, they tell you what to do. Advise you with your own paper or subscribe for it. They tell you to get into the position of mind with which the rest of the world and women of it say and run a woman's life.

And while they are passing around the advice of a family, they tell you what to do. Advise you with your own paper or subscribe for it. They tell you to get into the position of mind with which the rest of the world and women of it say and run a woman's life.
