

Your Valuables will be safe from Burglars and safe from Fire when you keep them in **OUR SAFETY DEPOSIT VAULTS**

You know a burglar does not break into a house where there are no valuables to steal. It is his business to "spot" the houses where they are kept, and those are the houses he robs. Burglars are dangerous men.

For your own safety and the safety of your valuables come in and rent a safety deposit box, only \$1.00 and up per year.

Fordson
TRADE MARK
Farm Tractor

A Fordson on your farm means quicker work—better work—easier work. You can do more work in a day with the Fordson, and it is easier for you. Get more money from the farm as well.

The Fordson is a product of the genius of Henry Ford. He was born on a farm, and he now lives on a farm, cultivating more than 7,000 acres every year. He knows the farm problems and he built the Fordson to help solve these problems in the easiest way; in a money-making way. Henry Ford & Son built one type of tractor; They have built this one tractor and have built it well.

The Fordson has more power per pound weight than any other tractor manufactured. It is a universal utility for the farm. Like the Ford car, its uses are many, and it is your servant during the entire year.

Only a limited number of Fordson tractors are allotted this territory, and the demand is greater than the supply. Orders are being filled in rotation. Order yours now.

Something That is Impossible

You know it is impossible to climb a tall stack with a short step-ladder. The ladder must reach to the top.

It is just the same with your telephone company. Our ladder, which is our income, is far too short to enable you to climb to the top of the growing stack of expense. If receipts do not cover the cost of service to you, what must you expect? The ladder does not reach, for service is being maintained at a loss.

Costs of labor and equipment have jumped all the way from 40 to 200 per cent above what they were only five years ago and are still going up. Growth of income has not measured up to the increase of expense.
